**Notice of Motion No. 9.6**      **Erosion at Clarkes Beach**

**File No:**                      I2017/321

**17-095 Resolved** that Council:

1. Prepare a report for Council's meeting on the 20th of April outlining the issues that are contributing to the massive erosion taking place through the tertiary coastal dune and caused by a stormwater outlet which is discharging from a height of approximately 5m above Main Beach at the far end of Clarke's Beach Caravan Park, also exposing ancient Aboriginal middens.
2. Establish whether Council consulted or gave any opinion or approval on the design of the stormwater outlet.
3. Take urgent action to reduce its contributions to erosion at the stormwater outlet and work with other stakeholders, encouraging them to do the same while an alternative outlet

arrangement is established and implemented.

4. Ascertain its responsibilities in relation to the stormwater outlet and determine whether it meets best practice guidelines or method for this sensitive, much loved, public and controversial coastal environment.
5. Receive a report at its Ordinary Meeting in May outlining what corrective actions were agreed to for the eastern stormwater outlet (to protect the midden currently being exposed) and when they will be carried out. (Ndiaye/Richardson)

**DELEGATES' REPORTS**

1. NSW Tourism Conference, Taree 12-14 March 2017

Cr Lyon advised Council:

Simon and I went to the Tourism Conference and spent a few nights there. Firstly, it was cheap because we drove to Taree in the Mayoral car, so good savings there. We attended a dinner on the Saturday night and we were sat with some people from Destination NSW which was lucky and interesting. I had a good chat with someone regarding potential funding for aspects of the Byron line somewhere down the line through Destination NSW but not at the feasibility stage. Once we've got the feasibility through and we move into that stage from a tourism point of view there could be

some good news there. My main reason for going was I'm very keen for us to build a coalition of Councils to look at implementing a bed tax and getting enough people on board to build pressure on State government, so I had quite a few conversations with possible partners. The response was somewhat underwhelming and this will be harder than I thought to do. Other Councils have a lot of different issues that they're concerned about and this isn't even close on their radar, so to get up enough people we'll have to really pick and choose the key coastal councils that will be interested in that idea. Very much a work in progress.

The Mayor further advised:

I will just add that the tourism conference, I had a chat with Keith Rhoades – the head of LGNSW – about trying to get a meeting with either the Minister or the head of Destination NSW. He has offered to try to organise this and get it together as I alerted him to we're looking to develop a regional alliance of Councils who aren't getting any sort of buck, certainly compared to the bang we're having in the tourist sectors. He was very supportive of that. We both also received some wonderful little virtual reality glasses, me and my children have been using them awesomely. Tourism ones would really bring heritage to life and Mullumbimby in particular should look into this. It's an Opportunity for people to really get into heritage and sort of make it pop again.

## 2. Rail corridor meeting

Cr Richardson advised Council:

It was really good to work through the design brief and get RDA's input into the type of language and focus we should be looking at – jobs, growth, etc., to help us so that when we get to the point of when we get the outcome of the consultants report and then look for funding if its shown to be viable that we actually are effective.
