Initial community consultation showed strong preference for the construction of a BMX/Pump track on the previously owned Department of Education land adjacent to the Suffolk Park Sports ground, Beech Drive.

This location at the time was discounted by staff for reasons of Lack of Tenure.

In 2017 Council successfully purchased this land.
Within the 2017/2018 adopted budget, funding was adopted to establish a master plan and ultimately the Plan of Management for this Precinct as Council Owned Operational Land.

Master planning for this precinct has progressed with the release of a Bang the Table survey for community input into desired infrastructure, location and priority. This is to be released 10 May and closes 24th May.

One such element presented in the draft master plan and subsequent survey is a Pump track.

On completion of the survey, a report is to be prepared for the June Meeting that provides survey results and outcomes of other consultation that is to inform the infrastructure plan and priorities for the precinct to be documented in the draft Plan of Management.

This report and subsequent resolution is to supersede Res 15-503.

It should also be noted that Res 15-503 was included and assessed within the preparation of the Draft Recreational Needs Assessment.

It was highlighted through this work that an informal (unauthorised) BMX/Pump track exists on site and draft recommendations included that a formal BMX/Pump Track be constructed in the park and the existing track be decommissioned.
