

## QUESTIONS WITH NOTICE

**Question with Notice No. 1**  
**File No:**

**Parking Management Strategy**  
I2020/1352

5

---

At Council's Ordinary Meeting held on 27 August 2020, Rick Collings asked the following question which was taken on notice:

*You've asked us if we would ever be willing to accept paid parking, but would Council ever be willing to work with us on a parking management strategy, that doesn't involve paid parking?*

**Response Director Infrastructure Services:**

At the 27 August 2020 Council Meeting a rescission motion was considered and Resolution **20-413** was passed. This resolution resolved to defer consideration of pay parking within the Brunswick Heads Parking Scheme until the March 2022 Ordinary Council meeting. Therefore Council is not proceeding with paid parking at this time.

Staff will continue to review parking time limits and alternate parking management strategies that don't involve paid parking in order to address some identified parking concerns in the interim.

It is anticipated this process will incorporate consultation with key community stakeholders to ensure all opinions are considered and that changes reflect community needs.
