Mr Chris Larkin,  
General Manager Byron Shire,  
70 Station Street,  
Mullumbimby,  
NSW 2482.

**Re: Review of On-site Sewer Management System for Lot 10 Federal Drive:**

Dear Mr Larkin,

We have reviewed the wastewater design for the proposed Fed Sheds development located at 467 Federal Drive Federal, NSW 2040.

The documentation reviewed was:

1. Greg Alderson and Associates On-site Sewage Management Feasibility Assessment Revision E 9/12/21.
2. Rev E Cover Letter Aldersons.
3. Peer Review by Joe Whitehead and Associates Environmental Consultants 30th August 2021.
4. Revised Site Plan Fed Sheds.

We believe that the WMS proposal as in its current design has integrity.

We would be willing to assist in refinement of the proposed system and the production of construction drawings or do a review of any further drawings produced.

Yours Truly,  
Kind Regards
