Subject: TYAGARAH NUDIST BEACH
Date: Monday, 15 January 2018 9:32:22 AM

Hello,

I just called regarding the Tyagarah nudist beach and the rules.

I am married long time nudist from Brisbane(spingswood)and often at Tyagarah but since the changes,its less frequent.

I truly understand this is a trial and the reason for this changes of closing the left side of the nude beach,from the carpark,turn right,walk 200m and for 800m is clothing optional and there are signs to guide the public.

For this reason,there are too many sex predators and I am deeply deeply sorry for the people involved that all we do is want to spend a nice day at the beach only to have unwanted vistors causing problems,especially towards women with their experiences.

I am thinking of joining the ANF(Australian naturist federation),if I do,i would like to suggest that any nudist that can use any part of the beach to have an ANF armband with a cost.

I believe if reopening the beach so its more than 800m,have more police patrolling/controlling.

Spending a day at the beach and going for a walk,nudists only got 800m of walking distance,its too short.

Nudists are not causings any problems if just walking along the beach,its only happening in the dunes.

I can be honest to say that nudity is both natural and sexual but its the sex predators who are not really nudists are the problem.

I just really want to share this with you and for many people who travel long distance to Tyagarah to enjoy the nudist lifestyle,getting a suntan,swim in the ocean are sad and let down because they have only 800m of beach.

I understand the local residents are the ones complaining but for queenslanders(I am a kiwi,not aussie)there is no nude beach as Alexandra bay noosa(A BAY)is an illegal beach.

I understand you are all under pressure is finding the best solution for everyone so we all can enjoy life but all I ask is reopen the beach please.

I will look forward in hearing from you.

Regards
Shane
