Hey,
As a Suffolk park resident and frequent tennis player, it's great that the tennis courts are going to be properly managed and we can get lessons / build a sense of community from the courts and facilities.
Great job ☺

As a Suffolk Park resident I am very pleased to hear that the tennis courts will be actively managed to provide some organisation and structure to their use. Coaching and social tennis opportunities will create more interest from locals and add to the appeal of the public area for families and kids who don't currently use the facilities. Any upgrades to the courts and facilities will be welcomed also.

Hi,

I live very close to the Suffolk park courts and completely support your proposal to license the local community tennis courts.

It's lovely to see the courts being used regularly by locals, great atmosphere and validates the usage of the courts and the desire in the community for the types services.

As a tennis player myself I'm over the moon that I can utilise local courts versus having to use Byron courts.

As a Suffolk resident I think it is great to have someone running these courts and providing a service to the courts. It has always been difficult to use the courts and having someone there will mean they are utilised much more often and efficiently. Great initiative.

A privately run facility at Suffolk Park would be a fantastic addition to community. With Suffolks ever expanding family atmosphere, it would be timely to invest in the community areas to bring them up to the standard seen in Byron.

As a born and bred local resident I very much look forward to and support the community club uptake of the courts. In particular I will be participating in the Suffolk park activities as understand there is a great future with the applicant group and passionate individuals involved. This group have worked very hard to get to this stage and with all the heart and good intentions of community style tennis as opposed to the over priced and exclusive town court tender which stopped me and my family playing tennis there.

Sounds like a great idea. Dunno if it's too much to ask, but would be cool to keep some free slots available for the local community (or ratepayers) too.

Very excited by the potential of Tim taking over the Suffolk Tennis court. He is a great coach and put some great tennis community initiatives in place while working in Byron. The Suffolk tennis court can definitely do with some management and organisation plus the surface need improvement.

The suffolk park courts are important for the community. One court should remain available for the community without a fee at all times, and the other can be used to have private lessons/clinics and play. When the lessons/clinics aren't scheduled, the courts should be free. And, there should be a limit as to how many lessons in a row are permitted during high traffic times. Tim is an excellent coach and he would be a good fit for the club. However, the use of the courts should remain free unless Tim uses it for a lesson/clinic then he should submit a portion of his lesson fees to court upkeep. Suffolk is not Byron and should not operate in a capitalist way.

I would like to write in great support for this proposal. I grew up in the area and played tennis as a child at both Bangalow and Byron regularly. As an adult, I play regularly and I very much enjoy social tennis evenings. The Byron tennis courts have become prohibitively expensive and difficult to get a court on. I would love more options in the region and to have community management of these courts so they are well maintained and provide coaching (for kids and adults) as well as a range of options for social tennis.

I live between Suffolk Park and Bangalow and would use both as I play 2-3 times per week as well as

having a young child who is beginning to learn.

Very much look forward to seeing these courts more lively and maintained.

Thanks you for the option to engage and build positive community options for tennis.

Hi
keen to support this - James and Tim are great coaches and bring a lot to our community. I hope this will be approved.
