Dear Andy

Proposed Planting & Tree Removal Pacific Vista Drive Byron Bay

Thanks for your proposal to treat weeds and remove undesirable trees on the western edge of the Clay Heath reserve found at Pacific Vista. Council fully endorses the initiative and complementary planting.

Council is committed to provide assistance across the broader areas of Clay Heath through weed control and hazard reduction but unfortunately are unable to fund the proposed works on this edge of Pacific Vista at the present time due to competing priorities.

Yours sincerely

Michael Matthews
Manager Open Space & Resource Recovery
