Your views on the Bangalow Sports Fields Plan of Management	
Please provide your comments	<p>[REDACTED]</p> <p>[REDACTED]. Shultz Oval is our home ground and the Bangalow Bowlo is our major sponsor. In 2023 we have almost 300 registered members (both junior and senior), making us the second largest user group for the Bangalow Sportsfields after the Bangalow Blue Dogs Soccer Club (the Soccer Club).</p> <p>The Byron Shire Rebels Rugby Club (the Rugby Club) has participated actively in the processes leading to the draft Plan of Management (PoM). We are grateful to the Byron Shire Council and to the consultants for the opportunities to be involved.</p> <p>The draft PoM overall reflects the key objectives of the Rugby Club. In particular we are pleased to note that it:</p> <ul style="list-style-type: none"> • Maintains Shultz Oval as the rugby field • Provides for the essential redevelopment of the change rooms • Provides for upgrading of the surfaces of the fields and raising of the levels where feasible to reduce flooding • Allows for additional "club support facilities/storage" in the area near the tennis courts. <p>The one objective of the Rugby Club that is not included in the draft PoM is to find space for a junior rugby field large enough to accommodate at least up to under 11s. The Soccer Club has consulted closely with us in the development of their submission to this process and we support the options that they have identified to re-orient the main rugby field and undertake other necessary works to provide room for a junior rugby field (110m x 60m) alongside a full size field (120m x 70m). We note that it would be important in any such changes for the needs of the Cricket Club to also be addressed.</p> <p>There would clearly need to be further work undertaken to assess the cost and feasibility of such changes but we suggest that the PoM should allow for the possibility of two rugby fields on Shultz Oval as described above.</p> <p>The Soccer Club has also consulted closely with us in relation to other aspects of their submission, in particular as regards the needs for redevelopment of the changerooms. The Rugby Club endorses the Soccer Club's submission.</p>

Your views on the Bangalow Sports Fields Plan of Management	
Please provide your comments	<p>The Plan uses language that restricts longer term master planning of the site in catering for the increased development and growing population of Bangalow and surrounds. This subsequently impacts the primary purpose of the land as a Sports Ground. The objectives set out on pages 17 - 24 should remove all specific wording that limits flexibility which may be needed for future development.</p> <p>The current change room's footprint is too small to cater for a multiport facility and storage options for sporting clubs should not be limited to a set location on the plan.</p> <p>The playground should move to the nearest space on the fields, within the vicinity of the change rooms. The current location next to the carpark is dangerous and poses a high risk of both children running onto the road where driver visibility is low and inadequate supervision from parents/guardians.</p>
Landscape Masterplan	
Please provide your comments	<p>Ovals: The white lines visible on Shultz Oval need to be removed from the Plan to ensure flexibility in field planning and orientation.</p> <p>All fields including JSF, Shultz Oval and the central Bangalow Sports Ground need to be reconstructed, involving earthworks to increase the level to minimise the impact of flooding, accommodate varied field layout, aspect, better drainage and irrigation.</p> <p>Change rooms: Demolish and reconstruction change rooms to a multi sports facility on an increased building footprint to provide for all ages, genders, non-binary and diverse abilities with capacity to cater to sports clubs growing memberships into the future.</p> <p>Playground: Move the play space to increase safety, accessibility and play value.</p>

What suburb do you live in?	2479
Your views on the Bangalow Sports Fields Plan of Management	
Please provide your comments	I play soccer and tennis at Bangalow, it would be good to have better changing facilities for female soccer players. The tennis courts are also in bad condition and so new surfaces a urgently needed, plus the fences are broken and balls go through underneath. When it rains the courts flood quickly and take ages to drain, its really busy at the tennis courts so more courts are also needed so we can play bigger competitions.
Landscape Masterplan	
Please provide your comments	Same as before, looks good but the priority would be better female change rooms and to fix the tennis courts asap.

Your views on the Bangalow Sports Fields Plan of Management	
Please provide your comments	<p>Congratulation's on progressing this so far and connecting with our local groups. I am so proud of how well sued the Sports Oval is by a diverse range of people, however this will only increase and we need to support the growth of the local population.</p> <p>Overall the concept seems good, a few comments:</p> <ol style="list-style-type: none"> 1. The kids playground remains dangerously close to an unfenced car park. 2. The tennis club has gone through a significant increase in participation from kids teens through to adult's it deserves greater priority on its development including at least one extra tennis court if not two new courts. Resurfacing of the current courts and maintenance on the fencing is also a high priority. There are around 10 juniors training at Bangalow tennis who are competing in state tournaments, they deserve the opportunity to have improved facilities. Our mature aged players use tennis as a social and fitness outlook and deserve safe playing surfaces with reduced risk of injury as well as more suitable facilities. with more courts and facilities - Bangalow could host tournaments and more tennis event which will help local business and our community 3. The idea of a shared facility with netball appears smart if there are clear agreements in place.
Landscape Masterplan	
Please provide your comments	<p>Expanding the footprint of the tennis courts at its current location appears suitable as it uses current infrastructure and services. I feel considering two multi use courts would be more suitable to allow for great growth in the game as population increases.</p> <p>The current surface conditions are poor, with very poor drainage on the courts and the surface uneven in many areas. this reduces the participation rates whilst other clubs with better surfaces can play very quickly once its stopped raining. This is already affecting the Junior Tennis comps and coaching with major delays after it rains. We need to provide participants with a much better experience.</p> <p>There are around 10 juniors training at Bangalow tennis who are competing in NSW state tournaments, and making state tennis finals. They deserve the opportunity to have improved facilities. Tennis offers a fantastic opportunity to people who dont suit contact sports and offers great life long lessons and a sport which promotes diversities as different ages, genders and backgrounds can all play and enjoy together.</p> <p>If the motel/hotel is also built nearby and the expansion/improvement of the Bowlo, an improved tennis club will approve an attractive proposition to tourists visiting Bangalow.</p> <p>The tennis club has a very passionate committee and members who will actively support these improvements plans.</p>

Your views on the Bangalow Sports Fields Plan of Management	
Please provide your comments	<p>I've been coaching and playing with Bangalow for over 10 years</p> <p>I think the change rooms are inadequate for the number of sports that use this area and should be upgraded to suit the future increase of the use of these facilities , I believe that the playground should be moved down in between the soccer fields and the rugby field and the space opened up for a bigger footprint for change rooms and toilets to be upgraded . The playground is too close too the road and car park</p> <p>I also think the grounds are in need of better drainage and turf resurfacing . I also think changing sheds should be included down on the northern end of the rugby fields</p> <p>Lighting should be upgraded to future proof the facility and be in consultation with the sporting clubs that use the area as well as lighting company consultants</p>

What suburb do you live in?	2479
Your views on the Bangalow Sports Fields Plan of Management	
Please provide your comments	<p>The Plan uses language that restricts longer term master planning of the site in catering for the increased development and growing population of Bangalow and surrounds. This subsequently impacts the primary purpose of the land as a Sports Ground. The objectives set out on pages 17 - 24 should remove all specific wording that limits flexibility which may be needed for future development.</p> <p>The current change room's footprint is too small to cater for a multiport facility and storage options for sporting clubs should not be limited to a set location on the plan.</p> <p>The playground should move to the nearest space on the fields, within the vicinity of the change rooms. The current location next to the carpark is dangerous and poses a high risk of both children running onto the road where driver visibility is low and inadequate supervision from parents/guardians.</p>
Landscape Masterplan	
Please provide your comments	<p>Ovals: The white lines visible on Shultz Oval need to be removed from the Plan to ensure flexibility in field planning and orientation.</p> <p>All fields including JSF, Shultz Oval and the central Bangalow Sports Ground need to be reconstructed, involving earthworks to increase the level to minimise the impact of flooding, accommodate varied field layout, aspect, better drainage and irrigation.</p> <p>Change rooms: Demolish and reconstruct change rooms to a multi sports facility on an increased building footprint to provide for all ages, genders, non-binary and diverse abilities with capacity to cater to sports clubs growing memberships into the future.</p> <p>Playground: Move the play space to increase safety, accessibility and play value.</p>
