Your feedback

I believe that this is the correct pathway for the landowners to obtain approval, via a development application, for the dwelling, and I support this development application.
The dwelling already exists and the landowners have fulfilled all other requirements.

Your feedback Council would be setting a very dangerous precedent by approving an illegal dwelling. By its very nature an illegal dwelling can and should not be deemed legal. It would send a clear message to ratepayers that council bylaws can be circumvented and thus ignored.
