## Petition regarding more traffic calming measures in Brandon Street, Suffolk Park

Petition summary and background	<p>Some of the traffic in Brandon Street is far too fast given the pedestrian traffic that it carries. There are no footpaths, and many people are on the road walking with children and/or their dogs, especially with the dog friendly beach so close by. In addition, there are cyclists of all ages using the street, as well as motorised wheelchairs. Traffic is furthermore heavier than necessary with people using Brandon Street to turn right into Wareham Street at the northern end.</p> <p>The Jarman and Brandon Street beach access needs, at the very least, an additional speed bump to slow visitors and locals alike who are exceeding the 50 km speed limit. This petition is seeking to improve the safety of all.</p>
