Fixing Country Roads Fund-Upgrading Mullumbimby Industrial Estate

The following businesses support the application by Byron Shire Council under the Fixing Country Roads program to fund the upgrade of key roads within the Mullumbimby Industrial Estate; namely, Manns road. Mullumbimby Road is the gateway to Mullumbimby's town centre, as is Manns Road to the industrial estate. They are heavily used by freight vehicles coming to and from local, national, or international markets and also provide access to many of the agricultural properties along the route.

The small to medium businesses located within the Mullumbimby industrial estate rely on this freight corridor to support and grow their businesses. In turn, this effects positive growth on the local and regional economies.

The current state of Manns road with its innumerable potholes and need for reconstruction is impacting the small businesses located within the estate. The condition of the road is poor and poses a safety risk to vehicles (freight and other) and increases the operating costs to all businesses.

Additionally, due to the narrow corridor and limited parking along both Smith Street and Towers Drive, we propose a one-way clockwise circuit to improve safety, accident prevention and visibility.

The attached businesses offer our support of Byron Shire Council's grant application for these improvements to the Mullumbimby Industrial Estate, and we look forward to improved access for all businesses within this region.

- mechanics need to test DRIVE - have a steet we need to collect Next
