

MODIFICATIONS TO CONSENT

- A. **Modify the “Staging of Construction” immediately before the heading “Parameters of this Consent” and condition 1 of the Notice of Determination to read as follows:**

Staging of Construction:

Stage 1 – Torrens Title Lot Consolidation of 3 Lots to 1 Lot and Boundary Adjustment (between two existing Lots).

Stage 2 – Works located on Proposed Lot 1. Construction of eight (8) dwellings, driveway, car parking and access to Kulgun Court, and Strata Subdivision;

Stage 4 – Works located on Proposed Lot 1. Construction of eight (8) dwellings, driveway, carparking, access to Brunswick Valley Way, and Strata Subdivision.

Stage 3 – Torrens Title subdivision of Lot 944 DP 241810 to create 2 lots; and Torrens Title Lot Consolidation of two lots into 1. Works located on Proposed Lot 2. Construction of eight (8) dwellings, driveway, car parking, and access to Matong Drive with a locked gate for Emergency Services (gate to be locked to prevent access through the site to Kulgun Court/Brunswick Valley Way), Strata Subdivision, Right-of Carriageway for dual occupancy on proposed Lot 3.

Stage 4 must be carried out before Stage 3.

Stage 5 – Works located on Proposed Lot 1. Construction of six (6) dwellings, driveway, carparking and Strata Subdivision.

Stage 6 – Construction of an additional dwelling on Proposed Lot 3 to create a Dual Occupancy (detached).

Stage 7 – Boundary adjustment between proposed Lot 2 and Lot 3.

Each construction stage must be undertaken in the above order (i.e. Stage 4 must be completed before Stage 3). Any changes to the sequencing of the construction staging will require a Section 4.55 application.

- B. **Modify “CONDITIONS FOR STAGES 2-6” immediately after condition 12 of the Notice of Determination to read as follows:**

CONDITIONS FOR STAGES 2-6

Stage 2 – Construction of 8 townhouses and associated infrastructure and strata subdivision; access to Kulgun Court.

Stage 4 – Construction of 8 townhouses and associated infrastructure and strata subdivision; access to Brunswick Valley Way.

Stage 3 – Construction of 8 townhouses and associated infrastructure and strata subdivision; access to Matong Drive; Subdivision of Lot 944 DP 241810 to create 2 lots; consolidation of 2 lots into 1.

Stage 4 must be carried out before Stage 3.

Stage 5 – Construction of 6 townhouses and associated infrastructure and strata subdivision

Stage 6 – Construction of 1 dwelling to create a Dual Occupancy (detached) and associated infrastructure

- C. **Modify conditions 1, 20, 32 and 55 of the Notice of Determination to read as follows:**

- 1) **Development is to be in accordance with approved plans**

The development is to be in accordance with plans listed below:

272 - H16 E	Elevations + Section	Story Design Collective	23/2/2022
273 - H16 E	Elevation + Section	Story Design Collective	23/2/2022

The development is also to be in accordance with any changes shown in red ink on the approved plans or conditions of consent.

The approved plans and related documents endorsed with the Council stamp and authorised signature must be kept on site at all times while work is being undertaken.

20) Erosion and Sedimentation Control Plan (All stages)

The plans and specifications to accompany the Construction Certificate application are to include a sediment and erosion control plan to indicate the measures to be employed to control erosion and loss of sediment from the site. The sediment and erosion control plan is to be designed in accordance with the requirements of the *NSW Department of Housing Manual (2004), Managing Urban Stormwater, Soils and Construction*.

A suitably experienced person must prepare the sediment and erosion control plan. Suitably experienced people include those certified by:

- The Institution of Engineers, Australia, for engineering and hydrology matters.
- The International Erosion Control Association for soil conservation matters.

- The Australian Society of Soil Science for collection or analysis of soil data.

The plan must incorporate (without being limited to) information on general site management, material handling practices, soil stabilisation, water control, sediment control, **wind erosion control/ dust suppression measures** and access measures.

32) Compliance with BASIX Certificate requirements (All Stages)

The development is to comply with BASIX Certificate relevant to the appropriate stage, including No.575291M, dated 23 September 2014 and No. 831128M, dated 15 June 2017, except as modified by BASIX Certificate No. 1174262M dated 5 February 2021 only in relation to Stage 4 of the development. The commitments indicated in the Certificate are to be indicated on the plans submitted for approval of the Construction Certificate.

The plans submitted must clearly indicate all windows numbered or identified in a manner that is consistent with the identification on the BASIX Certificate.

Minor changes to the energy efficiency measures may be undertaken without the issue of an amendment under Section 96 of the Act, provided that the changes do not affect the form, shape or size of the building.

Proposed external colours/materials must be consistent with those shown on the approved plans referred to in Condition No.1 of this consent. Such plans and specifications must be approved as part of the Construction Certificate.

55) Maintenance of Sediment and Erosion Control Measures (All Stages)

Sediment and erosion control measures including **dust suppression and wind erosion measures** must be maintained at all times until the site has been stabilised by permanent vegetation cover or hard surface.

D. Insert the following additional condition into the Notice of Determination in appropriate order:

8A) Use of dwellings

The dwellings are not to be used for short term rental accommodation or for holiday let purposes.

34A) Privacy controls. Amendment to the plan required (Stage 4 and Stage 5 dwellings)

The elevated alfresco on the south eastern side of the dwellings has the potential to reduce the level of privacy enjoyed by the occupants of the adjoining dwellings to the south east.

The plans submitted for approval of the Construction Certificate must be amended to include a privacy screen constructed on the south eastern side of each alfresco deck area.

The screen to be constructed from lattice, vertical slats or other similar non-transparent screenings. Where slats are used they are to be angled to ensure the line of sight is directed away from the adjoining dwellings. The screens must be a minimum of 1.8m high from the floor level of each alfresco deck.

A minimum setback of 4 metres be provided to the south east rear boundary from the subject dwellings.

Such plans are to be approved as part of the Construction Certificate.

34B) Underfloor Screening and Acoustic Privacy controls (Stage 4 and Stage 5 dwellings)

The application for a Construction Certificate is to include plans and specifications that indicate the provision of screens around the base of the Stage 4 and Stage 5 dwellings to limit noise transmission

The screening at the rear south eastern elevation of each Stage 4 and Stage 5 dwelling must cover the entire underfloor space with solid weather board or fibre cement board, a minimum of 6mm thick, from the top of the footing to the underside of the floor joist.

Further acoustic screening also to be provided/ returned down the side of each dwelling for a further 4 metres in accordance with the above.

The remainder of the sides of each dwelling to be screened with slats or lattice with a vertical coverage of 60%. The screen is to be located vertically below the external walls and not the outer edge of the walls.

Such plans and specifications must be approved as part of the Construction Certificate.

E. Insert the following headings and additional conditions into the Notice of Determination immediately after condition 35:

The following condition is to be complied with prior to issue of a Construction Certificate for Stage 4 for building works

35A) Amended Strata Development Contract

Prior the issue of a construction certificate for building works for stage 4, the strata development contract must be amended in accordance with clause 84 of NSW Strata Scheme Development Act 2015 and copy of the registered strata development contract is to be submitted to the Principal Certifying Authority.

The following condition is to be complied with prior to issue of a Construction Certificate for Stage 3 building works

35B) Completion of Stage 4

Prior to issue of the Construction Certificate for building works for stage 3, the occupation certificate for staged 4 building works must be issued and a copy submitted to the Principal Certifying Authority

F. Modify the “General Terms of Integrated Development Approval” of the Notice of Determination to appear as follows:

NSW RURAL FIRE SERVICE

Byron Shire Council
PO Box 219
MULLUMBIMBY NSW 2482

Your reference: (CNR-19771) 10.2014.743.4
Our reference: DA-2015-00058-CL55-1

ATTENTION: Greg Smith

Date: Friday 29 July 2022

Dear Sir/Madam,

Integrated Development Application
s100B – Subdivision – Strata Title Subdivision
2 KULGUN COURT OCEAN SHORES NSW 2483, //SP102058

I refer to your correspondence dated 27/04/2022 seeking general terms of approval for the above Integrated Development Application.

The New South Wales Rural Fire Service (NSW RFS) has reviewed the submitted amended information. General Terms of Approval are now re-issued, under Division 4.8 of the *Environmental Planning and Assessment Act 1979*, and a Bush Fire Safety Authority, under section 100B of the *Rural Fires Act 1997*, are now issued subject to the following conditions.

General Conditions

1. The development proposal is to comply with the layout identified in the following drawings, except where modified by this Bush Fire Safety Authority:

- 'Proposed Overall Staging Plan' prepared by Story Design Collective (Ref: 20017, Drawing No. 102, Rev. A), dated 28 January 2021;
- 'Overall Master Plan' (Amendment No.8), prepared by Leisure Brothers, dated 25 June 2015;
- 'Part Site Plan 1', prepared by Leisure Brothers amendment 4 dated 11 September as amended by Story Design dated 22 November 2021;
- 'Part Site Plan 2', prepared by Leisure Brothers amendment 6 dated 9 May 2015 as amended by Story Design dated 22 November 2021;
- 'Master Site Plan – Stage 2', prepared by Parameter Designs (Ref: 2039A), dated 1 May 2017; and
- 'Proposed Site Plan - Stage 4' prepared by Story Design Collective reference 20017, drawing number 104, revision E dated 21 February 2022.

Asset Protection Zones

The intent of measures is to provide sufficient space and maintain reduced fuel loads so as to ensure radiant heat levels of buildings are below critical limits and to prevent direct flame contact with a building. To achieve this, the following conditions shall apply:

1

Postal address

NSW Rural Fire Service
Locked Bag 17
GRANVILLE NSW 2142

Street address

NSW Rural Fire Service
4 Murray Rose Ave
SYDNEY OLYMPIC PARK NSW 2127

T (02) 8741 5555
F (02) 8741 5550
www.rfs.nsw.gov.au

2. At the commencement of development and in perpetuity, the entire property except the area greater than 15 metres north of proposed 'House 22' and greater than 15 metres east of proposed 'House 29' and 'House 30' shall be managed as an inner protection area (IPA) as outlined within section 4.1.3 and Appendix 5 of 'Planning for Bush Fire Protection 2006' and the NSW Rural Fire Service's document 'Standards for asset protection zones'.

Construction Standards

The intent of measures is that buildings are designed and constructed to withstand the potential impacts of bush fire attack. To achieve this, the following conditions shall apply:

3. New construction shall comply with Sections 3 and 7 (BAL 29) Australian Standard AS3959-2009 'Construction of buildings in bush fire-prone areas' and section A3.7 Addendum Appendix 3 of 'Planning for Bush Fire Protection'.

4. Roofing shall be gutterless or guttering and valleys are to be screened to prevent the build up of flammable material. Any materials used shall be non-combustible.

5. Fencing shall be non-combustible.

Access – Property Access

The intent of measures for internal roads is to provide safe operational access for emergency services personnel in suppressing a bush fire, while residents are accessing or egressing an area. To achieve this, the following conditions shall apply:

6. Access shall comply with section 4.2.7 of 'Planning for Bush Fire Protection 2006', except that road widths are to comply with Table 4.1.

7. Temporary turning areas and/or turning circles for Stages 2, 3, 4 and 5 shall comply with the following requirements:

- turning areas or reversing bays shall be not less than 6 metres wide and 8 metres deep with an inner minimum turning radius of 6 metres and outer minimum radius of 12 metres; and
- turning circles shall have a minimum outer radius of 12 metres.

Water and Utility Services

The intent of measures is to provide adequate services of water for the protection of buildings during and after the passage of a bush fire, and to locate gas and electricity so as not to contribute to the risk of fire to a building. To achieve this, the following conditions shall apply:

8. Water, electricity and gas are to comply with section 4.1.3 of 'Planning for Bush Fire Protection 2006'. The reticulated water supply, including hydrants, shall extend into the development.

Landscaping Assessment

The intent of measures is for landscaping to minimise the risk of bush fire attack. To achieve this, the following conditions shall apply:

9. Landscaping to the site is to comply with the principles of Appendix 5 of 'Planning for Bush Fire Protection 2006'.

General Advice – Consent Authority to Note

- The RFS raises no concern about the modification for Stage 4 to be carried out before Stage 3, modification to the design of Stage 4 residential development and completion of the Stage 5 driveway as part of Stage 4.
- Establishment asset protection zones may require the clearing of vegetation. This bush fire safety authority does not authorise the clearing of any vegetation, nor does it include an assessment of potential flora and fauna impacts of clearing vegetation for the purpose of establishing asset protection

zones. Approvals necessary for the clearing of vegetation should be obtained prior to the establishment of the proposed asset protection zones.

This letter is in response to an assessment of the application based on the submitted further information and supersedes our previous general terms of approval dated 17/09/2021.

For any queries regarding this correspondence, please contact Wayne Sketchley on 1300 NSW RFS.

Yours sincerely,

Alan Bawden
Manager Planning & Environment Services
Built & Natural Environment

NSW RURAL FIRE SERVICE

BUSH FIRE SAFETY AUTHORITY

Subdivision – Strata Title Subdivision
2 KULGUN COURT OCEAN SHORES NSW 2483, //SP102058
RFS Reference: DA-2015-00058-CL55-1
Your Reference: (CNR-19771) 10.2014.743.4

This Bush Fire Safety Authority is issued on behalf of the Commissioner of the NSW Rural Fire Service under s100b of the Rural Fires Act (1997) subject to the attached General Terms of Approval.

This authority supersedes the previous Bush Fire Safety Authority DA-2015-00058-S4.55-2 issued on 17/09/2021 and confirms that, subject to the attached reissued General Terms of Approval being met, the proposed development will meet the NSW Rural Fire Service requirements for Bush Fire Safety under *s100b of the Rural Fires Act 1997*.

Alan Bawden

**Manager Planning & Environment Services
Built & Natural Environment**

Friday 29 July 2022

G. Modify the “Water payments under the Water Management Act 2000” Note and “Schedule of Development Contributions” Note in the Notice of Determination to read as follows:

Water payments under the Water Management Act 2000

Charges will be calculated based on the additional water and sewerage load that the proposed development generates, shown in Equivalent Tenements (ET) by the following table:

ADDITIONAL WATER & SEWER LOAD OF DEVELOPMENT
(ET Policy 2018)

	Stage 3	Stage 4	Stage 5	Stage 6	Stage 7
Water	6.40 ET	6.40 ET	3.60 ET	0.80 ET	0 ET
Bulk Water	6.40 ET	6.40 ET	3.60 ET	0.80 ET	0 ET
Sewer	8.00 ET	8.00 ET	5.00 ET	1.00 ET	0 ET

NB: Information regarding Development Servicing charges can be found on the Byron Shire Council website (<https://www.byron.nsw.gov.au/Services/Water-sewer/Plumbers-and-developers/Calculate-the-cost-of-an-Equivalent-Tenement#section-3>).

These charges will enable you to calculate the total contribution charges payable when you are ready to pay them. Developer charges will be calculated in accordance with the Development Servicing Plan applicable at the date of payment.

Schedule of Development Contributions

The following contributions are current at the date of this consent. The contributions payable will be adjusted in accordance with the relevant plan and the **amount payable will be calculated on the basis of the contribution rates that are applicable at the time of payment.** The current contribution rates are available from Council offices during office hours. **Payments will only be accepted by cash or bank cheque.**

STATEMENT OF REASONS

Council is required to give and publicly notify reasons for a range of planning decisions where they are deciding if development should proceed to help community members to see how their views have been taken into account and improve accountability to stakeholders. A statement of reasons for the determination of this application is provided below.

Statement of Reasons

The modifications are minor and the development as modified is substantially the same as the originally approved development, with no significantly detrimental environmental impacts.

How community views were addressed

The application was publicly exhibited in accordance with the Community Participation Plan. The submissions received were considered on merit and addressed during assessment of the application. To view the considerations, please contact Council to view a copy of the assessment report relating to this application.
