

## SCHEDULE 1. DEFERRED COMMENCEMENT CONDITION PURSUANT TO SECTION 4.16(3)

The following condition concerns matters as to which the Council must be satisfied before the consent can be issued:

### Deferred Commencement Consent

This consent does not operate until Council is satisfied as to the following matter:

#### 1. Building Information Certificate

A Building Information Certificate must be obtained from Council for the Co-op structures and any other structure approved by this consent if already constructed as indicated on the stamp approved Plan 1 Site Plan Received 04/09/23. Prior to issue of the Building Information Certificate the applicant is to demonstrate to Councils satisfaction with evidence in the form of detailed report/s from suitably qualified and experienced professionals the constructed works satisfies

1. A land survey from a registered surveyor is required with the Building Information Certificate application identifying all structures located upon the subject property.
2. Any cool rooms must comply with the performance requirements of G1P3 -Cool rooms of the BCA Volume 1.
3. Any recommended works identified in this report/s or identified by Council must be completed prior to issue of the Building Information Certificate;
4. The following Performance Provisions of the Building Code of Australia.

Performance Requirement of the Building Code of Australia

H1P1 Structural stability and resistance to actions (including glazing)

H2P1 Rainwater management

H4P2 Room heights

H5P1 Movement to and within a building.

## SCHEDULE 2. CONDITIONS OF CONSENT

Upon satisfaction of the deferred commencement condition/s, the following conditions apply:

### Parameters of consent

#### 1. Approved plans and supporting documentation

Development must be carried out in accordance with the following approved plans and supporting documentation (stamped by Council), except where the conditions of this consent expressly require otherwise.

Plan No.	Title	Drawn by	Dated
Plan 1	Site Plan	JJ Drafting Services	Received 04/09/23
Page 3	Reforest Now Structure Map	JJ Drafting Services	03/12/22
Page 4	Potting Shade Structure A & Potting Shade Structure B Floor Plans & Elevations	JJ Drafting Services	03/12/22
Page 5	Hot House A, Shade House A & Open Shed Floor Plans & Elevations	JJ Drafting Services	03/12/22

Page 6	Hot House B, Shade House B & Hot House C Floor Plans & Elevations	JJ Drafting Services	03/12/22
Page 3	Solar Shed Plans	JJ Drafting Services	03/12/22
Page 4	Co-op Proposed Plan	JJ Drafting Services	24/08/23
Page 5	Co-op Elevations	JJ Drafting Services	24/08/23
Page 3	Shade Structure Floor Plan, Roof Plan & Elevations	JJ Drafting Services	03/12/22
Plan 2	Lilypad Structure Elevations & Roof Plan	JJ Drafting Services	Received 04/09/23
Plan 3	Men's Shed Site Plan	JJ Drafting Services	03/12/22
Plan 3	Men's Shed Floor Plan	unknown	Received 08/12/22
Plan 4	Men's Shed Elevations	unknown	Received 08/12/22

In the event of any inconsistency between the approved plans and the supporting documentation, the approved plans prevail. In the event of any inconsistency between the approved plans and a condition of this consent, the condition prevails.

**Note:** an inconsistency occurs between an approved plan and supporting documentation or between an approved plan and a condition when it is not possible to comply with both at the relevant time.

## 2. Scope of approval

Approval is granted for the following proposed structures in accordance with Condition 1:

- B14, B18, B19 additions, B20, B26

Approval is granted for the use of the following existing structures in accordance with Condition 1:

- B4, B6, B7, B8, B9, B10, B13, B14, B15, B19, B21, B22, B23, B24

Approval has not been granted for markets as defined by LEP 2014:

**market** means an open-air area, or an existing building, that is used for the purpose of selling, exposing or offering goods, merchandise or materials for sale by independent stall holders, and includes temporary structures and existing permanent structures used for that purpose on an intermittent or occasional basis.

Note—

Markets are a type of retail premises

Approval has not been granted for a function centre defined by LEP 2014:

**function centre** means a building or place used for the holding of events, functions, conferences and the like, and includes convention centres, exhibition centres and reception centres, but does not include an entertainment facility.

## 3. Payment of security deposits

Before the commencement of any works on the site or the issue of a construction certificate, the applicant must make all of the following payments to Council and provide written evidence of these payments to the certifier:

Security deposit	\$3000
Inspection fee	In accordance with Council's fees and charges

The payments will be used for the cost of:

- making good any damage caused to any council property (including street trees) as a consequence of carrying out the works to which the consent relates,
- completing any public work such as roadwork, kerbing and guttering, footway construction, stormwater drainage and environmental controls, required in connection with this consent, and
- any inspection carried out by Council in connection with the completion of public work or the making good any damage to council property.

**Note:** The inspection fee includes Council's fees and charges and includes the Public Road and Footpath Infrastructure Inspection Fee (under the *Roads Act 1993*). The amount payable must be in accordance with council's fees and charges at the payment date.

**4. Support for neighbouring buildings**

If an excavation extends below the level of the base of the footings of a building on an adjoining allotment of land, the person causing the excavation to be made or builder must:

- a. Inform the neighbouring property owner immediately.
- b. Engage a structural engineer to determine any remedial works that may need to be undertaken.
- c. Preserve and protect the adjoining building from damage.
- d. If necessary, underpin and support the building in an approved manner.

**5. Conditions prescribed by the Regulation**

This development consent is subject to the conditions prescribed by the regulations in accordance with subsection 4.17(11) of the Environmental Planning and Assessment Act 1979. Conditions are provided in **Schedule 3** of this consent.

**The following conditions are to be complied with prior to issue of a Construction Certificate for building works**

**6. Construction site management plan**

Before the issue of a construction certificate, the applicant must ensure a construction site management plan is prepared before it is provided to and approved by the certifier. The plan must include the following matters:

- location and materials for protective fencing and hoardings to the perimeter on the site
- provisions for public safety
- pedestrian and vehicular site access points and construction activity zones
- details of construction traffic management, including proposed truck movements to and from the site and estimated frequency of those movements, and measures to preserve pedestrian safety in the vicinity of the site
- protective measures for on-site tree preservation (including in accordance with AS 4970-2009 Protection of trees on development sites and Council's DCP, if applicable) and trees in adjoining public domain (if applicable)
- details of any bulk earthworks to be carried out
- location of site storage areas and sheds
- equipment used to carry out all works
- a garbage container with a tight-fitting lid
- dust, noise and vibration control measures
- location of temporary toilets.

The applicant must ensure a copy of the approved construction site management plan is kept on-site at all times during construction.

**7. Water and Sewerage - Section 68 Part B approval**

If required, an **Approval** under Section 68 of the Local Government Act 1993 to carry out water supply work and sewerage work must be obtained.

Water metering to be in accordance with Byron Shire Council's water metering requirements  
See: <https://www.byron.nsw.gov.au/Services/Building-development/Other-approvals-and-permits/Plumbing-and-Drainage-Applications>

Any new water service and meter will be at applicants cost.

8. **Certificate of Compliance – s307 Water Management Act 2000**

Prior to issue of any Construction Certificate, a Certificate of Compliance under Section 307 of the Water Management Act 2000 must be obtained upon payment of developer charges for water and sewer as calculated in accordance with Byron Shire Council and Rous County Council Development Servicing Plans. Where staging of the Construction Certificate occurs, a separate s307 Compliance Certificate must be obtained for each stage.

Byron Shire Council acts as Rous County Council's agent in this matter and will issue a Certificate of Compliance on behalf of Rous County Council upon payment of the Rous County Council Development Servicing Charge to this Council.

**Note:** For issue of the Certificate of Compliance, an application form and associated fee must be lodged via Council's website. Copies of Byron Shire Council's Development Servicing Plans are available via Council's website.

Developer charges will be calculated in accordance with the Development Servicing Plan applicable at the date of payment. A check must be made with Council to ascertain the current rates by contacting Council's Principal Engineer Systems Planning, Utilities on 02 6626 7000. Applicable charges can also be found on Council's website: <https://www.byron.nsw.gov.au/Services/Water-sewer/Plumbers-and-developers/Calculate-the-cost-of-an-Equivalent-Tenement#section-3>

**The contributions payable will be adjusted in accordance with relevant plan and the amount payable will be calculated on the basis of the contribution rates that are applicable at the time of payment.**

**Payment by Personal or Company Cheque will not be Accepted**

9. **On-site stormwater detention required**

The application for a Construction Certificate is to include plans and specifications for stormwater drainage in accordance with the relevant Australian Standard. All stormwater drainage for the development must be conveyed via an on-site stormwater detention system by gravity to existing drainage line located east of the building site.

Such plans and specifications must be approved as part of the Construction Certificate.

All stormwater drainage systems within the lot and the connection to a public or an inter-allotment drainage system must:

- (a) comply with any requirements for the disposal of stormwater drainage and on-site stormwater detention contained in Council's Development Control Plan, Stormwater Guideline and Local Approvals Policy; and
- (b) unless exempt from obtaining an approval under section 68 of the Local Government Act 1993 by a Local Approvals Policy, an approval must be obtained under that Act prior to issue of a Construction Certificate.

10. **Consent required for works within the road reserve**

Consent from Council must be obtained for works within the road reserve pursuant to Section 138 of the Roads Act 1993. Three (3) copies of engineering construction plans must accompany the application for consent for works within the road reserve.

Such plans are to be in accordance with Council's current Design & Construction Manuals and are to provide for the following works:

**Driveway**

Southern access driveway in accordance with Council's current "Northern Rivers Local Government Development Design & Construction Manuals and Standard Drawings".

**11. Car parking layout, vehicle circulation and access plans required.**

The application for a Construction Certificate is to include plans and specification that indicate access, parking and manoeuvring details in accordance with the plans approved by this consent.

The access, parking and manoeuvring for the site is to comply with the requirements of AS 2890.1-2004: Parking facilities, Part 1: Off-street car parking and AS 2890.2 – 2010 - Parking facilities, Part 2: Off-street commercial vehicle facilities. Plans are to include, but not be limited to, the following items:

- a) pavement design, comprising an all weather surface, such as asphalt, bitumen seal, concrete, pavers or other similar treatment;
- b) site conditions affecting the access;
- c) existing and design levels;
- d) longitudinal section from the road centreline to the car space(s);
- e) cross sections every 15 metres;
- f) drainage details;
- g) turning paths; and
- h) line marking and signage.

The engineering plans and specifications are to be designed by a qualified practising Civil Engineer. The Civil Engineer is to be a corporate member of the Institution of Engineers Australia or is to be eligible to become a corporate member and have appropriate experience and competence in the related field.

Such plans and specifications must be approved as part of the Construction Certificate.

**NOTE: The plans must be in compliance with Council's current "Northern Rivers Local Government Development Design & Construction Manuals and Standard Drawings".**

**12. Flood Planning Level**

The flood planning level for this development is 4.47m A.H.D. The plans and specifications to accompany the construction certificate application are to indicate a minimum habitable floor level that is at, or up to 0.3m above, the flood planning level unless a greater floor level has been shown on the plans approved by the development consent.

The plans and specifications to accompany the construction certificate application are to also indicate:

- a. a minimum floor level of 3.45m A.H.D for non-habitable building or room (eg. Shed, carport, garage, laundry, shelter, etc.); and
- b. the use of flood compatible materials and services below the flood planning level in accordance with the requirements of Council's Development Control Plan 2014 – Chapter C2 – Areas Affected by Flood.

Such plans and specifications must be approved as part of the Construction Certificate.

**13. Waste Management Plan**

Before the issue of a construction certificate, the applicant is to ensure that a waste management plan is prepared in accordance with the EPA's Waste Classification Guidelines and the following requirements before it is provided to and approved by the certifier:

a. Council's Waste Management Development Control Plan

**OR**

b. details the following:

- the contact details of the person(s) removing the waste
- an estimate of the waste (type and quantity) and whether the waste is expected to be reused, recycled or go to landfill
- the address of the disposal location(s) where the waste is to be taken

The applicant must ensure the waste management plan is referred to in the construction site management plan and kept on-site at all times during construction.

### **The following conditions are to be complied with prior to any building or construction works commencing**

14. **Erosion & sediment measures**

Erosion and sedimentation controls are to be in place in accordance with the *Guidelines for Erosion & Sediment Control on Building Sites*. A full copy may be downloaded from Council's web site at [www.byron.nsw.gov.au](http://www.byron.nsw.gov.au).

### **The following conditions are to be complied with during any building or construction works**

15. **Hours of work**

The principal certifier must ensure that building work, demolition or vegetation removal is only carried out between:

- 7am to 6pm on Monday to Friday.
- 8am to 1pm on Saturday.

The principal certifier must ensure building work, demolition or vegetation removal is not carried out on Sundays and public holidays, except where there is an emergency.

Unless otherwise approved within a construction site management plan, construction vehicles, machinery, goods or materials must not be delivered to the site outside the approved hours of site works.

**Note:** Any variation to the hours of work requires Council's approval.

16. **Construction Noise**

While building work is being carried out, and where a noise and vibration management plan is approved under this consent, the applicant must ensure that any noise generated from the site is controlled in accordance with the requirements of that plan.

**OR**

While building work is being carried out and where no noise and vibration management plan is approved under this consent, the applicant is to ensure that any noise caused by demolition, vegetation removal or construction does not exceed an LAeq (15 min) of 5dB(A) above background noise, when measured at any lot boundary of the property where the construction is being carried out.

17. **Signs to be erected on building and demolition sites**

A sign must be erected in a prominent position on the work site:

- a. stating that unauthorised entry to the work site is prohibited, and
- b. showing the name of the person in charge of the work site and a telephone number at which that person may be contacted outside working hours.

Any such sign is to be removed when the work has been completed.

18. **Builders rubbish to be contained on site**

All builders rubbish is to be contained on the site in a 'Builders Skips' or an enclosure. Footpaths, road reserves and public reserves are to be maintained clear of rubbish, building materials and all other items.

19. **Prevention of water pollution**

Only clean and unpolluted water is to be discharged to Council's stormwater drainage system or any watercourse to ensure compliance with the Protection of Environment Operations Act.

**Note: Council may impose on-the-spot fines for non-compliance with this condition.**

20. **Maintenance of sediment and erosion control measures**

Sediment and erosion control measures must be maintained at all times until the site has been stabilised by permanent vegetation cover or hard surface.

21. **Stormwater drainage work**

Stormwater drainage for the development must be constructed in accordance with the approved plans and specification by a suitably qualified person.

22. **Demolition**

Any required demolition works must be undertaken in accordance with the relevant requirements of Australian Standard AS 2601–1991: The Demolition of Structures published by Standards Australia, and the WorkCover Authority of NSW.

23. **Removal of demolition and other wastes**

All wastes, including asbestos and lead-contaminated wastes, associated with these works are to be handled and disposed of in accordance with the requirements of the Work Cover Authority. The applicant/owner is to produce documentary evidence that this condition has been met. Wastes must be disposed of at a Licenced Waste Facility. All wastes removed from the site must be managed and disposed of in accordance with the [NSW EPA Waste Classification Guidelines \(2014\)](#)

24. **Excavated natural materials and demolition waste disposal**

Any and all excavated natural materials and demolition and builders waste transported from the site must be accompanied (a copy kept with the transporter) by a [NSW Protection of The Environment Operations Act s143 Notice](#).

25. **Aboriginal Relics**

While demolition or building work is being carried out, all such works must cease immediately if a relic or Aboriginal object is unexpectedly discovered. The applicant must notify the Heritage Council of NSW in respect of a relic and notify the Secretary of the Department of Planning, Industry and Environment and the Heritage Council of NSW in respect of an Aboriginal object. Building work may recommence at a time confirmed by either the Heritage Council of NSW or the Secretary of the Department of Planning, Industry and Environment.

In this condition:

- "relic" means any deposit, artefact, object or material evidence that:

- a. relates to the settlement of the area that comprises New South Wales, not being Aboriginal settlement, and
  - b. is of State or local heritage significance; and
- “Aboriginal object” means any deposit, object or material evidence (not being a handicraft made for sale) relating to the Aboriginal habitation of the area that comprises New South Wales, being habitation before or concurrent with (or both) the occupation of that area by persons of non-Aboriginal extraction and includes Aboriginal remains.

### The following conditions are to be complied with prior to occupation of the building

26. **Works to be completed prior to issue of a Final Occupation Certificate**  
All of the works indicated on the plans and approved by this consent, including any other consents that are necessary for the completion of this development including approvals issued under the Local Government Act 1993 and the Roads Act 1993, are to be completed and approved by the relevant consent authority/s prior to the issue of a Final Occupation Certificate.
- Any Security bond paid for this application will be held until Council is satisfied that no further works are to be carried out that may result in damage to Councils road/footpath reserve.
27. **Access and parking areas to be completed.**  
The access and parking areas are to be constructed in accordance with the approved plans and Roads Act consent.
28. **Floor Levels – Certification for Flooding**  
Prior to the issue of any Occupation Certificate, a certificate from a registered surveyor must be submitted to the Principal Certifying Authority confirming the height of habitable and non-habitable floors. An Occupation Certificate must not be issued unless the floor levels are at or above the relevant flood planning levels. A copy of the floor level certification from the registered surveyor must also be submitted to Council for the attention of Council's Drainage and Flood Engineer.
29. **On-site Stormwater Detention – Certification of works**  
All stormwater drainage works, including on-site stormwater detention works, for the development must be constructed in accordance with the approved plans and specification prior to issue of an occupation certificate. Certificate/s of Compliance and Work-As-Executed (WAE) plans for the stormwater works must be submitted to the Principal Certifying Authority prior to the issue of an occupation certificate.
30. **Engineers certification required**  
Engineers certification is required for all temporary structures/greenhouses prior to the issue of an Occupation Certificate.

### The following conditions are to be complied with at all times

31. **Site Waste Minimisation and Management**  
All works must comply with the objectives of waste minimisation and waste management of Part B8.1.2 of DCP 2014.
32. **Must not interfere with the amenity of the neighbourhood**  
The use of the development must not interfere with the amenity of the neighbourhood by reason of noise, vibration, smell, fumes, smoke, dust, wastewater or otherwise. In particular:

- a. Any complaints to Council about 'offensive' noise will be dealt with under the provisions of the Protection of the Environment Operations Act 1997.
  - b. Only clean and unpolluted water is permitted to be discharged to Councils' stormwater drainage system or any waters.
  - c. All wastes shall be contained within appropriate containers fitted with a tight-fitting vermin-proof lid.
  - d. All waste storage and sewage facilities shall be serviced and maintained to ensure that all relevant environment protection standards are satisfied.
  - e. Goods deliveries shall be restricted to daytime operating hours.
33. **Leasing / Licensing**  
The use of all structures subject to this consent must comply with the licence held by Mullumbimby SEED Inc. and granted in accordance with Council resolution 23-114 at all times.
34. **Hours of operation**
- Co-Op**  
The use of the Food Co-Op building located at the front entrance of the site is permitted between the hours of 10am – 4pm daily.
- Sheds and shade structures**  
The use of the sheds and shade structures is permitted between the hours of 7am – 6pm daily.
- Men's Shed**  
The use of the Men's Shed is permitted between the hours of 9am – 3pm daily. Doors and windows of the Men's Shed must remain closed at times when electric or pneumatic hand tools and/or mechanical equipment is being used.
35. **Amplified noise – not permitted**  
Amplified music and/or amplified noise is not permitted within any area of the development at any time.
36. **Overnight camping – Not permitted**  
No approval is granted for any form of overnight camping or caravanning on the site.
37. **Retail sale of food prohibited at the Co-Op**  
Retail sale of food from the Co-Op is prohibited.

### **SCHEDULE 3. PRESCRIBED CONDITIONS**

**The prescribed conditions in accordance with Part 6 Division 8A of the Environmental Planning and Assessment Regulation as at the date of this development consent as are of relevance to this development must be complied with:**

- Clause 98 Compliance with Building Code of Australia and insurance requirements under the Home Building Act 1989
- Clause 98A Erection of signs
- Clause 98B Notification of Home Building Act 1989 requirements
- Clause 98C Conditions relating to entertainment venues
- Clause 98D Condition relating to maximum capacity signage
- Clause 98E Condition relating to shoring and adequacy of adjoining property

Refer to the NSW State legislation for full text of the clauses under Part 6 Division 8A of the [Environmental Planning and Assessment Regulation 2000](http://www.legislation.nsw.gov.au). This can be accessed at <http://www.legislation.nsw.gov.au>.

## SCHEDULE 4. REASONS FOR DECISION, HOW COMMUNITY VIEWS WERE ADDRESSED

*Note: From July 1 2018, Council's are required to give and publicly notify reasons for a range of planning decisions where they are deciding if development should proceed to help community members to see how their views have been taken into account and improve accountability to stakeholders. A statement of reasons for the determination of this application is provided below.*

### Statement of Reasons

The proposed development complies with the provisions of Byron Local Environmental Plan 1988.
The proposed development complies with the provisions of Byron Local Environmental Plan 2014.
The proposed development complies with relevant State Environmental Planning Policies
The proposed development complies with relevant provisions of Development Control Plan 2014
The proposed development complies with relevant provisions of Development Control Plan 2010
The proposed development complies with Environmental Planning & Assessment Regulation 2021 considerations.
The proposed development will not have significant adverse impact on the natural, built or social environment or economic impacts on the locality.
The proposed development is considered suitable for the proposed site.
The proposed development is unlikely to prejudice or compromise the public interest.

### How community views were addressed

The DA was advertised in accordance with Council's Community Participation Plan. The submissions received were considered on merit and addressed during assessment of the application.
To view the considerations, please contact Council to view a copy of the assessment report relating to this DA.

## SCHEDULE 5. NOTES

### Construction Certificate required:

This development consent is issued under the Environmental Planning and Assessment Act 1979 and does not relate to structural aspects or specifications of the building under the Building Code of Australia. All buildings and alterations require the issue of a Construction Certificate prior to works commencing.

Application for a Construction Certificate must be made online using the [NSW Planning Portal](#).

### Principal Certifying Authority:

Work must not commence until the applicant has:-

- appointed a Principal Certifying Authority (if the Council is not the PCA); and
- given Council at least two days notice of the intention to commence the erection of the building. Notice must be given by using the prescribed 'Form 7'.
- notified the Principal Certifying Authority of the Compliance with Part 6 of the Home Building Act 1989.

### Occupation Certificate required:

The building must not be occupied until the Principal Certifying Authority has issued an Occupation Certificate.

### Protection of the Environment Operations Act 1997:

It is an offence under the provisions of the Protection of the Environment Operations Act 1997 to act in a manner causing, or likely to cause, harm to the environment. Anyone allowing material to enter a waterway or leaving material where it can be washed off-site may be subject to a penalty infringement notice (“on-the-spot fine”) or prosecution.

**Penalties apply for failure to comply with development consents**

Failure to comply with conditions of development consent may lead to an on the spot fine being issued pursuant to section 4.2(1) of the Environmental Planning & Assessment Act 1979 or prosecution pursuant to section 9.50 of the Environmental Planning & Assessment Act 1979.

**Plumbing Standards and requirements.**

All Plumbing, Water Supply, Sewerage and Stormwater Works shall be installed in accordance with the Local Government Act 1993, Plumbers Code of Australia and AS/NZS 3500 Parts 0-5, the approved plans (any notations on those plans) and the approved specifications. Any plumbing inspections required under a Section 68 Approval are to occur in accordance with that approval.

**Relics Provisions- Advice**

Attention is directed to the NSW Heritage Act 1977 and the provisions of the Act in relation to the exposure of relics. The Act requires that if:

- a) a relic is suspected, or there are reasonable grounds to suspect a relic in ground, that is likely to be disturbed damaged or destroyed by excavation; and/or
- b) any relic is discovered in the course of excavation that will be disturbed, damaged or destroyed by further excavation;

Those responsible for the discovery must notify nominated management personnel who will in turn notify the Heritage Council of New South Wales or its delegate, the Office of Environment and Heritage, NSW Heritage Branch, and suspend work that might have the effect of disturbing, damaging or destroying such relic until the requirements of the NSW Heritage Council have been satisfied (ss139, 146).

**Water payments under the Water Management Act 2000**

Charges will be calculated based on the additional water and sewerage load that the proposed development generates, shown in Equivalent Tenements (ET) by the following table:

**ADDITIONAL WATER & SEWER LOAD OF DEVELOPMENT**  
**(ET Policy 2018)**

Water	2.34 ET
-------	---------

NB: Information regarding Development Servicing charges can be found on the Byron Shire Council website (<https://www.byron.nsw.gov.au/Services/Water-sewer/Plumbers-and-developers/Calculate-the-cost-of-an-Equivalent-Tenement#section-3>).

These charges will enable you to calculate the total contribution charges payable when you are ready to pay them. Developer charges will be calculated in accordance with the Development Servicing Plan applicable at the date of payment.
