

DRAFT
Revenue Policy
including
Fees and Charges
2022/23

BYRON SHIRE COUNCIL

2022/23 STATEMENT OF REVENUE POLICY

Introduction

Council is required to adopt an Operational Plan annually which is to include a Statement of Revenue Policy in accordance with Section 405 (2) of the Local Government Act 1993 (LGA) and Regulation 201 of the Local Government (General) Regulation 2021 (LGR).

The following paragraphs provide information regarding how Council will levy ordinary land rates, charges and fees in the 2022/23 rating year and the anticipated revenue that will be derived from each separate rate, charge or fee.

Ordinary Land Rates

Rating Categories and Sub-Category

Council has categorised all rateable properties in accordance with section 514 of the LGA to be within one of the following rating categories. Sections 515 to 519 of the LGA describe how land is to be categorised for rating purposes.

- Residential
- Business*
- Farmland
- Mining

Council has also declared a ***business sub-category** for the centre of activity being **Byron Bay CBD** in accordance with section 529 of the LGA. The following map defines properties that are to be sub-categorised as Byron Bay CBD if they are categorised as business.

Total Permissible Revenue - Rate Pegging or Special Rate Variation (SRV)

The rate peg is a percentage determined by the Independent Pricing and Regulatory Tribunal (IPART) each year that limits the maximum general income NSW Councils can collect above the income it collected in the previous year. From 2022/23 the rate pegging limit includes a population growth factor. The rate pegging limit for 2022/23 for Byron Shire Council is 2.3%.

General Income comprises income from ordinary land rates and special rates (Byron Shire Council does not currently levy any special rates). It does not include income derived from fees or charges such as water, wastewater (sewer), waste management, stormwater, on-site sewage management fees etc.

It is important to understand that the rate peg applies to total income. Individual property rates may fluctuate depending upon their rating categorisation, Council's adopted rating structure and their land valuation.

Councils may apply for an increase above the announced rate peg limit for a number of years, known as a Special Rate Variation (SRV) application (section 508A or 508(2) of the LGA). The SRV percentage overrides the rate pegging limit if approved.

Council last applied for and received approval for a 4-year SRV of 7.5% per year between 2017/18 and 2020/21.

Land Valuations

Land valuations are supplied to Council by the NSW Valuer General's Office (VG) and disregard any developments on the land. Land valuations are used by Councils to levy ordinary land rates.

For equity purposes, the VG usually provides Council with updated land valuations every three years. July 2019 base date land valuations supplied by the VG will be used for the rating years between 2020/21 and 2022/23.

Council uses land values to equitably levy ordinary land rates by applying a rate in the dollar to an individual property's land valuation. A different rate in the dollar applies to different rating categorisations. Effectively rates are an asset tax, the higher a property's land value, the more rates they will contribute based on the "ability to pay" taxation principle.

An increase in total land valuations received from the VG does not increase Council's total permissible annual income; they simply redistribute the rate burden between individual properties based on that property's change in comparison to others.

More information about land valuations and their use by councils is available from the Property NSW website at http://www.valuergeneral.nsw.gov.au/council_rates.

Council's Rating Structure

For many years Council has utilised a minimum rating structure pursuant to section 497 (a) of the LGA, with a minimum rate applied in accordance with section 548 of the LGA. A reduced minimum rate is applied to flood prone land in accordance with section 548 (c) (iii) of the LGA. Council will continue to levy rates pursuant to section 494 of the LGA in 2022/23 using the same minimum rating structure utilised in the previous rating year.

The methodology used to set 2022/23 ordinary land rates are as follows:

1. Calculate **total permissible general income limit** for 2022/23:
 - i. Pursuant to Chapter 15 Part 2 (sections 505 to 513 of the LGA)
2. Set required proportion of total permissible **income payable for each rating category or sub-category**:
 - i. These percentages of total permissible income are determined by Council
 - ii. Sub-Category of **Business Byron Bay CBD to pay 8.5%**
 - iii. Category of **Business to pay 12.5%** (i.e. other business properties excluding Byron Bay CBD)
 - iv. Category of **Farmland and Sub-Category of Farmland Flood Prone Land to pay 5.0%**
 - v. Category of **Residential and Sub-Category of Residential Flood Prone Land to pay balance** of required total permissible income.
3. Set the **minimum rate payable** for each category and sub-category:
 - i. Maximum minimum rate is varied from previous year pursuant to section 548 of the LGA or set as part of a special variation instrument.
 - ii. Set the **Residential, Business, Mining and Farmland category plus Business Byron Bay CBD sub-category minimum rate** – the minimum rate for the previous year increased by the rate pegging limit or approved SRV percentage increase, rounded down to the nearest dollar – these will all be exactly the same amount
 - iii. Set the **Residential Flood Prone Land sub-category minimum rate** to be half of the Residential category minimum rate, rounded to the nearest dollar
 - iv. Set the **Farmland Flood Prone Land sub-category minimum rate** to be half of the Farmland category minimum rate, rounded to the nearest dollar
4. Calculate the **rate in the dollar** payable for each category and sub-category
 - i. This calculation utilises land valuations and considers assessments where a minimum rate is payable.
 - ii. Calculate the rate in the dollar payable for the **Residential category** to achieve the desired income
 - iii. The rate in the dollar calculated for the Residential category becomes the rate in the dollar for the **Residential Flood Prone Land Category**
 - iv. Calculate the rate in the dollar payable for the **Farmland category** to achieve the desired income.
 - v. The rate in the dollar calculated for the Farmland category becomes the rate in the dollar for the **Farmland Flood Prone Land Category**
 - vi. Calculate the rate in the dollar payable for the **Business category** to achieve the desired income
 - vii. The rate in the dollar calculated for the Business category becomes the rate in the dollar for the **Mining Category** (Council does not currently have any mining properties)
 - viii. Calculate the rate in the dollar payable for the **Business sub-category "Byron Bay CBD"** to achieve the desired income

The following table provides Council's **2022/23 rating structure**, which includes the 2.3% allowable rate pegging increase. The actual income generated by the July 2022 rate levy will vary slightly from the amounts listed below as the rate levy will use properties and land valuations as at 30 June 2022 to calculate total permissible income.

Category or Sub-Categories	Estimated Number of Properties	Rate in the Dollar (\$)	Minimum Rate (\$)	Total Estimated Income (\$)	Proportional Contribution of Yield (%)	Estimated Average Rate
Residential	14,036	0.2039	969	20,761,648	73.91%	1,480
Residential - Flood Prone	28	0.2039	485	14,015	0.05%	501
Business	1,116	0.3509	969	3,509,918	12.50%	3,145
Business - Byron Bay CBD	357	0.4865	969	2,386,508	8.50%	6,680
Mining	0	0.3509	969	0	0.00%	0
Farmland	534	0.1871	969	1,402,069	5.00%	2,634
Farmland - Flood Prone	2	0.1871	485	970	0.00%	485
TOTALS	16,073			28,075,128	100.00%	1,747

Pensioner Concessions

Council provides concessions for eligible pensioners under Section 575 of the Local Government Act 1993 as follows:

- 50% of the combined ordinary land rate and domestic waste management charge up to a \$250.00 maximum rebate.
- 50% of water fixed and usage charges up to an \$87.50 maximum rebate.
- 50% of wastewater fixed charge up to an \$87.50 maximum rebate.

Council funds 45% of the total concessions granted with 50% funded by the State Government and the remaining 5% funded by the Federal Government.

Council has also adopted a Pensioner Concessions policy that outlines how Council will process pensioner concession applications where legislation is silent. Visit Council's web site for a copy of this policy.

Charges

In accordance with Sections 496, 496A, and 501 of the Local Government Act 1993, Council will levy annual charges for the following services:

- Water
- Wastewater (sewer)
- Domestic Waste Management
- Non-Domestic (commercial) Waste Management
- Stormwater Management

In accordance with Section 502 of the Local Government Act 1993 (LGA), Council will levy charges for actual use for the following services:

- Water Usage
- Wastewater (Sewer) Usage
- Liquid Trade Waste

Water, Wastewater and Waste Management Charges relating to non-rateable properties will be charged in accordance with Sections 496, 501 and 502 of the LGA. For the purpose of charging these non-rateable properties that actually use these services in accordance with section 503 (2) of the LGA, the charges to be applied are the same as those charged against rateable properties as these charges are representative of use.

Waste Management Charges

Council's waste management charging structure is designed to provide an incentive to customers to reduce the level of waste that ends up in landfill.

In accordance with Section 496 of the LGA, Council must make and levy an annual charge for the provision of **Domestic Waste Management (DWM)** services for each parcel of rateable land for which the service is available (i.e. properties that are along the route of the waste collection truck).

All serviced urban and rural domestic properties will pay a mandatory DWM collection service charge regardless of whether the service is utilised or not. Serviceable vacant land and properties that are occupied but where Council has decided not to provide a collection service (e.g. safety, physical limitations of the property etc) must still pay a DWM charge pursuant to section 496 of the LGA.

Customers may choose to receive additional services to meet their resource recovery needs.

In accordance with Section 501 of the LGA, Council will levy an annual **Waste Management Charge** for all **non-domestic customers** (e.g. business, commercial, industrial and schools) provided with a collection service identified in the table below. This is a voluntary collection service.

An annual **Waste Operations Charge** for on-going operations and future infrastructure requirements of Council's Resource Recovery Centre landfill site will be levied in addition to each waste collection service charge (domestic and non-domestic), except for single bin collection services requested in addition to the existing collection service.

Any collection service charge adjustments will be made on a pro-rata basis however, newly rateable domestic properties will attract charges from the next rating quarter after they became rateable.

A multi-unit development (MUD) is defined as a strata unit or flat complex consisting of three or more units/flats.

Resource Recovery (waste) operations has incurred significant increases to external expenditure in recent years primarily due to increases in the Queensland waste levy and an increase in transporting and processing of organics following the closure of a local facility.

External costs such as the QLD waste levy, transport (fuel) and organics processing will again significantly increase in 2022/23 resulting in a pricing increase of around 17% in comparison to 2021/22.

The following tables outline Council's **Domestic Waste** Management charges for the 2022/23 rating year.

Waste Collection Service Type	Annual Service Charge (\$)	Waste Operations Charge (\$)	TOTAL Charge	Number of Services	Estimated Yield (\$)
Domestic Waste Management Charges – s496 LGA					
Urban – 3 bin collection service – (Including Federal Village) (Waste Operations Charge is also payable in addition to annual collection charge)					
80 litre mixed waste (fortnightly) + 240L Recycling (fortnightly) + 240L Organics (weekly)	199	115	314	572	179,608
140 litre mixed waste (fortnightly) + 240L Recycling (fortnightly) + 240L Organics (weekly)	418	115	533	6,767	3,606,811
240 litre mixed waste (fortnightly) + 240L Recycling (fortnightly) + 240L Organics (weekly)	619	115	734	2,368	1,738,112
140 litre mixed waste (weekly) + 240L Recycling (weekly) + 240L Organics (weekly) <i>Subject to Council approval</i>	1,094	115	1,209	15	18,135

Stormwater Management Service Charges (Section 496A LGA)

In accordance with Section 496A of the Local Government Act 1993 (LGA) and regulation 125A of the Local Government (General) Regulation 2021 (LGR), Council will levy a Stormwater Management Service Charge against rateable properties for which the service is available. Council has identified the residential and business properties that are within Council's urban stormwater catchment areas that will be subject to this charge.

The following charging methodology will be used by Council using the guidelines released by the Office of Local Government as well as considering Section 510A of the LGA and regulation 125AA of the LGR.

Charge Methodology

The guidelines provide Council with the opportunity to levy charges on a catchments area or global basis, while ensuring that the total income generated does not exceed the level of expenditure for new and additional stormwater management services. Council has a stormwater capital works program and as a result, a global approach will be used to enable significant works to be funded at a given time using all revenue levied, rather than waiting to collect enough funds in individual catchments. In accordance with these guidelines, councils still need to ensure equitable distribution of stormwater management services over time.

Properties categorised as Residential (Not being Strata Titled) – LGR 125AA (1)(a)

A flat charge of \$25.00 for a Stormwater Management Service Charge is to be charged against each eligible assessment categorised as Residential within the urban stormwater catchment. This charge is uniform across all urban catchment areas to minimise administration costs.

This amount of \$25.00 is the current upper charge limit for urban residential land stipulated in clause 125AA of the Local Government (General) Regulation 2021.

Properties categorised as Residential (Strata Units) – LGR 125AA (1)(b)

The cost of managing stormwater runoff from impervious surfaces is usually substantially less per residential strata lot than per standard residential property.

It is for this reason that a flat charge of \$12.50 for a Stormwater Management Service Charge is to be levied against each eligible residential strata unit within the urban stormwater catchment. This charge is uniform across all urban catchment areas to minimise administration costs.

This amount of \$12.50 has been recommended using the guidelines provided by the Office of Local Government.

Properties categorised as Business (Not being Strata Titled) – LGR 125AA (1)(c)

A Stormwater Management Service Charge is to be charged against each eligible assessment (not being strata titled) categorised as business within the urban stormwater catchment area based on the total area of the assessment. A charge of \$25.00, plus an additional \$25.00 for each 350 square metres or part thereof by which the area of the parcel of land exceeds 350 square metres will be levied (see exceptions section below).

The criteria for charging business properties by using property areas has been recommended using the guidelines provided by the Office of Local Government.

Exceptions to area based charging – Business Properties

Certain business properties covering large property areas may incur significant charges for stormwater management that would not be reflective of the level of stormwater service provided by Council. These properties involve large portions of open space not being impervious in nature and therefore not producing an increased level of stormwater run-off.

Some examples of properties that fall into this category include:

- Bowling Clubs
- Golf Courses
- Caravan Parks
- Resorts
- Business properties having buildings / impervious surfaces populating a small portion of a total land area

Council has reviewed the Stormwater Management Service Charge to be applied to these types of properties so that a more equitable charge can be determined. This review process involved an analysis of the impervious surfaces on each reviewed property to reflect a charging structure similar to business properties of a smaller land area. Properties with a land area in excess of 4,000 square metres were reviewed in relation to the impervious surface area of the land, with the charge determined by grossing up the impervious surface area by a factor of 11%, in accordance with the assumptions made within the departmental guidelines. See example below:

Total land area	50,000 square metres
Impervious surface area*	1,000 square metres

* The impervious surface area is calculated by identifying this surface type on individual properties using Council’s aerial photos and the GIS system.

Calculation of Area to be charged

As the departmental guidelines assume that 90% of business properties are impervious, the impervious surface is grossed up to determine the area of the land subject to the charge. The following example is for a property with an actual land area of 1,000 square metres:

Impervious area is divided by 90 and multiplied by 100

= 1,000 / 90 x 100
= 1,111 square metres.

The charge will be:

For the first 350 square metres	\$25.00
For the second 350 square metres	\$25.00
For the third 350 square metres	\$25.00
For the remaining square metres	<u>\$25.00</u>
Total charge	\$100.00

It should be noted that properties with an area less than 4,000 square metres are able to have the charge reviewed under Council’s appeal process.

Properties categorised as Business (Strata Units) – LGR 125AA (1)(d)

A Stormwater Management Service Charge will be levied on each eligible business strata unit within the urban stormwater catchment area based on one of the following two scenarios:

Scenario 1 – Business Strata Units Only

If the strata complex contains only business properties (i.e. not mixed development) the charge per strata unit will be calculated by using a charge of \$25.00 per 350m² of the land area occupied by the strata scheme (or part thereof), proportioned by the unit entitlement of each lot in the strata scheme. In the event that this approach results in charge of less than \$5.00 per unit, a minimum charge of \$5.00 will be levied on each strata unit.

This method of charging is consistent with the methodology used to charge non-strata titled business properties.

Scenario 2 – Business and Residential Strata Units (Mixed Development)

If the strata complex contains mixed development (i.e. properties rated as both business and residential) the dominant rating category of the total parcel of land will be determined and charges then applied for the whole strata complex based on the determined dominant category. In the event that the dominant rating category is unclear, Council will determine the most equitable charging method on a case by case basis.

Urban Land Exempt from the Stormwater Management Service Charge

The same exemptions that apply to non-rateable properties for other rates and charges also apply in respect of the stormwater management service charge pursuant to the Local Government Act.

In addition, the following properties are also exempted from this charge under the provisions:

- Rateable land owned by the Crown
- Rateable land under a lease for private purposes granted under the Housing Act 2001 or the Aboriginal Housing Act 1998
- Vacant Land

Councils are also not to levy the charge on properties where they do not provide a stormwater management service.

Mixed Development (Non-Strata)

The most equitable charging method for non-strata mixed development properties will be determined by Council on a case by case basis.

The following table shows the 2022/23 charging structure and estimated revenue generated by Stormwater Management Service Charges.

Property Type	Number of Properties	Annual Charge (\$)	Yield (\$)
Residential Properties (not strata titled)	7,588	25.00	189,700
Residential Strata Units (not within a business dominant mixed development)	2,772	12.50	34,650
Business Strata Units (not within a mixed development)	642	**Varying Amounts (5.00 minimum charge)	13,436
Business Strata Units (within a residential dominant mixed development)	126	12.50	1,575
Business Properties (not strata titled)	551	**Varying Amounts (25.00 minimum charge)	67,800
Totals	11,679		307,161

**** Varying Amounts:** A single annual flat charge does not apply to Business Properties (as charges are based on an individual property's impervious land area), or Business Strata Units not within a mixed development (as charges are based on the common property land area and strata unit entitlement for each strata complex). As a result, individual annual charges have been omitted from the above table.

Funds derived from the Stormwater Management Service Charge must be spent on transparent (i.e. on ground) works and the community must be advised of the proposed works and projects as part of the Operational Plan consultation process.

Details of expenditure on overall stormwater/drainage capital works can be found in Capital Works section of the Budget document as part of this Statement of Revenue Policy.

Water Charges

Council's water charging structure is made up of two components, a fixed annual access charge levied on properties with access to the water supply and a usage charge based on the volume of water consumed.

Water Access Charge - Annual Charges (Section 501 LGA)

Fixed water access charges for both Residential and Non-Residential properties are charged depending on water meter connection size and the number of services connected to the property.

To properly reflect the water load a water connection can place on the system, annual access charges are proportional to the square of the size of the customer’s water supply service, which is in accordance with the NSW State Government’s “Best Practice Management of Water Supply and Wastewater Guidelines”.

Council may apply a water access charge for a lesser than actual water service size diameter if the larger service is required due to the property being in a very low water pressure area or if the service is a combined supply for both normal and fire service provisions.

An annual water access charge will apply to all properties (including strata titled lots and vacant land) that are able to connect and are within 225 metres of Council’s water mains.

Vacant land which does not have a water meter connected will be charged the equivalent of 50% of the 20mm standard fixed access charge.

Council will not levy a water access charge for standalone fire service water meters unless the service is consuming water for anything other than firefighting or testing purposes.

For properties that have a master water meter connection and individual water meters downstream of the master meter, access charges will be levied based on the sizes of the connected downstream meters. The master meter will not attract an access charge.

Council will provide a water allowance for customers requiring home dialysis treatment or any other medical treatment that may require additional water consumption by the resident. The allowance will be equivalent to the estimated annual water consumption of the dialysis machine as advised by the North Coast Area Health Service, with the allowance provided on a quarterly basis.

The formula used to derive annual water access charges based on the connection size is:

$$WF = WF_{20} \times (D^2/400)$$

Where:	WF	=	Customer’s Annual Water Access Charge (\$)
	WF ₂₀	=	Annual Water Access Charge for a 20mm Diameter water supply service connection (\$)
	D	=	Diameter of water supply service (mm)

Water Access Charges - Residential Properties

Service Type	Annual Charge (\$)	Number of Services	Estimated Yield (\$)
Water Access Charge 20mm Service	203	11,142	2,261,826
Water Access Charge 25mm Service	318	62	19,716
Water Access Charge 32mm Service	522	8	4,176
Water Access Charge 40mm Service	812	10	8,120
Water Access Charge 50mm Service	1,270	10	12,700
Water Access Charge 65mm Service	2,146	0	0
Water Access Charge 80mm Service	3,250	0	0
Water Access Charge 100mm Service	5,078	0	0
Water Access Charge Vacant Land	102	101	10,302
Total – Residential Water Access Charges			2,316,840

Water Access Charges - Non-Residential Properties

Service Type	Annual Charge (\$)	Number of Services	Estimated Yield (\$)
Water Access Charge 20mm Service	203	1,225	248,675
Water Access Charge 25mm Service	318	168	53,424
Water Access Charge 32mm Service	522	49	25,578
Water Access Charge 40mm Service	812	98	79,576
Water Access Charge 50mm Service	1,270	62	78,740
Water Access Charge 65mm Service	2,146	2	4,292
Water Access Charge 80mm Service	3,250	8	26,000
Water Access Charge 100mm Service	5,078	10	50,780
Water Access Charge Vacant Land	102	30	3,060
Total – Non-Residential Water Access Charges			570,125

Water Usage Charges (Section 502 LGA)

A volumetric water usage charge will be levied based on the water usage recorded as passing through the water meter/s servicing each property. Water meters are read and billed on a quarterly basis.

The 2022/23 usage rate/s will apply to water consumed from the end meter reading date for the previous billing year (being the start reading for the following year), which is usually taken during the month of May.

A single charge rate per kilolitre will apply to all drinking/potable water consumed regardless of property type, as recommended by Best Practice Pricing Guidelines published by NSW Government department WaterNSW.

Non-Complying Water Supply Users

Properties that are technically non-complying users of Council's water supply will be levied an increased water usage charge. This charge is a valuable tool in achieving compliance with water supply and private fire hydrant systems.

There are two possible scenarios on why this charge can be applied to a property:

1. Council has issued advice to the owner that no backflow device or private fire hydrant system has been installed where necessary. A three month period has elapsed and the premises remain non-compliant.
2. Council has issued advice to the owners that no backflow devices or fire hydrants maintenance report has been provided. A three month period has elapsed and the premises remain non-compliant.

Recycled Water Usage Charge (Section 502 LGA)

A volumetric water usage charge will be levied based on the recycled water usage recorded as passing through the dedicated recycled water meter/s servicing each property.

Water access charges are not applicable for dedicated recycled water meter connections.

Water Usage Charges

Charge Type	Rate per Kilolitre (\$/KL)	Estimated Yield (\$)
Residential		
Residential Water Usage Charge	2.98	5,677,135
Residential Water Usage Charge – Non-Compliant User	5.97	Unknown
Residential Recycled Water Usage Charge	0.01	Unknown
Non-Residential		
Non-Residential Water Usage Charge	2.98	2,355,863
Non-Residential Water Usage Charge – Non-Compliant User	5.97	Unknown
Non-Residential Recycled Water Usage Charge	0.01	Unknown
Total Water Usage Charges		8,032,999

Wastewater (Sewer) Charges

Council's wastewater (sewer) pricing structure for residential and non-residential properties complies with WaterNSW best practice pricing guidelines and is summarised as follows;

- For **residential** properties – Fixed annual access charge only (based on the size of the water meter connection/s)
- For **non-residential** properties – Fixed annual access charge (based on the size of the water meter connection/s) + Volumetric usage charge based on the estimated percentage of water returned to the wastewater system

An annual wastewater access charge will apply to all properties (including strata titled lots and vacant land) that are able to connect to and are within 75 metres of Council's wastewater mains.

The wastewater access charge is proportional to the size of the water supply service connection to the property in order to reflect the potential load placed on the wastewater system.

Vacant land with no connection to the wastewater system will be charged equivalent to 50% of the standard 20mm wastewater access charge.

Properties which are not separately metered (e.g. strata lots in a large complex) will attract a wastewater access charge equivalent to the standard 20mm Wastewater Access Charge.

Wastewater charges (access or usage) are not levied on standalone fire services.

For properties that have a master water meter connection and individual water meters downstream of the master meter, access charges will be levied based on the sizes of the connected downstream meters. The master meter will not attract an access charge.

Properties that require a private wastewater pod/pump device due to low pressure (New Brighton / Billinudgel areas) receive a \$25 discount on their wastewater access charge to cover electricity costs.

Residential Properties - Wastewater (sewer) Access Charges (Section 501 LGA)

Service Type	Annual Charge (\$)	Number of Services	Estimated Yield (\$)
Wastewater (sewer) Access Charge 20mm	1,340	10,376	13,903,840
Wastewater (sewer) Access Charge 25mm	2,094	47	98,418
Wastewater (sewer) Access Charge 32mm	3,431	7	24,017
Wastewater (sewer) Access Charge 40mm	5,360	10	53,600
Wastewater (sewer) Access Charge 50mm	8,375	8	67,000
Wastewater (sewer) Access Charge 65mm	14,154	0	0
Wastewater (sewer) Access Charge 80mm	21,440	0	0
Wastewater (sewer) Access Charge 100mm	33,501	0	0
Wastewater (sewer) Access Charge - Vacant Land (Not connected to Wastewater)	671	254	170,434
Wastewater (sewer) Access Charge - Pod/Pump	1,313	174	228,462
Total Residential Wastewater (sewer) Access Charges			14,545,771

Non-Residential Properties - Wastewater (sewer) Access Charges (Section 501 LGA)

Service Type	Annual Charge (\$)	Number of Services	Estimated Yield (\$)
Wastewater (sewer) Access Charge 20mm	905	1,154	1,044,370
Wastewater (sewer) Access Charge 25mm	1,415	164	232,060
Wastewater (sewer) Access Charge 32mm	2,316	46	106,536
Wastewater (sewer) Access Charge 40mm	3,620	85	307,700
Wastewater (sewer) Access Charge 50mm	5,656	50	282,800
Wastewater (sewer) Access Charge 65mm	9,560	2	19,120
Wastewater (sewer) Access Charge 80mm	14,482	9	130,338
Wastewater (sewer) Access Charge 100mm	22,627	7	158,389
Wastewater (sewer) Access Charge - Vacant Land (Not connected to Wastewater)	671	42	28,182
Wastewater (sewer) Access Charge - Pod/Pump	879	9	7,911
Total Non-Residential Wastewater (sewer) Access Charges			2,317,406

Wastewater (sewer) Usage Charges – Non-Residential Properties Only (Section 502 LGA)

Similar to the water usage charge, a volumetric wastewater (sewer) usage charge will be levied on a quarterly basis to non-residential properties that discharge wastewater (sewage) to Council's wastewater system.

Wastewater (sewer) usage charges no longer apply to residential properties from 2020/21.

The 2022/23 usage rate/s will apply from the end water meter reading date for the previous billing year (being the start reading for the following year), which is usually taken during the month of May.

A sewer discharge factor (SDF) is applied to all non-residential properties that discharge to Council's wastewater system. The SDF is the estimated percentage of water consumed by a property that is returned to the wastewater system.

SDF's are determined by considering the type of activity undertaken on the property and are set for each property in accordance with WaterNSW document - Liquid Trade Waste Regulation Guidelines April 2009. Council may review the SDF for non-residential properties for non-standard activities.

Council may provide an adjustment to a property's wastewater usage charge if the property experiences a significant water leak event in which the water lost as a result of the leak event was proven not to have returned to Council's wastewater system.

Wastewater (sewer) Usage Charges – Non-Residential

Charge Type	Rate per Kilolitre (\$/KL)	Estimated Yield (\$)
Wastewater (sewer) Usage Charge <i>*(Individual Property SDF to be applied to rate/KL)</i>	*2.98	1,989,616
Total Wastewater (sewer) Usage Charges		1,989,616

Liquid Trade Waste Charges

Liquid Trade Waste Fixed Charge (Section 501 LGA)

Liquid Trade Waste means “all liquid waste other than sewage of a domestic nature.”

The purpose of this charge is to cover the costs incurred by Council for the administration and management (including inspections) of these systems.

The liquid trade waste classifications are based on the level of impact dischargers have on the wastewater system.

Category 1 dischargers are those businesses which conduct an activity deemed by Council as requiring minimal pre-treatment and are considered low risk. They pay an annual fixed charge but not a volumetric based charge (unless non-compliant).

Category 2 dischargers are those businesses which conduct an activity generating medium to high level liquid trade waste that requires a pre-treatment equipment (such as a grease trap) to be installed. They pay an annual fixed charge and a volumetric usage charge based on the property's assessed Trade Waste Discharge Factor (TWDF). Non-compliant usage charges may also apply.

Category 2S dischargers are those businesses which conduct an activity of transporting and/or discharging septic tank or pan content into the wastewater system. They pay an annual fixed charge and a volumetric usage charge based on the property's assessed TWDF (non-compliant usage charges may also apply).

Category 3 dischargers are those businesses which discharge large volumes of liquid trade waste (over 20 kl/d) to the wastewater system. They pay an annual fixed charge and excess mass charges based on the concentration of substances discharged to the wastewater system in excess of deemed domestic discharge levels.

The following table outlines 2022/23 liquid trade waste fixed charges.

Liquid Trade Waste Fixed Charges

Charge Type	Annual Charge (\$)	Number of Services	Estimated Yield (\$)
Liquid Trade Waste – Category 1	160	87	13,920
Liquid Trade Waste – Category 2	267	237	63,279
Liquid Trade Waste – Category 2S	267	1	267
Liquid Trade Waste – Category 3 (Large Industrial and Commercial Premises)	757	2	1,514
Total Liquid Trade Waste Fixed Charges			78,980

Liquid Trade Waste Usage Charges (Section 502 LGA)

Liquid trade waste dischargers have a Trade Waste Discharge Factor (TWDF) added to their Sewer Discharge Factor (SDF) to determine their total wastewater usage charge.

Like the SDF factors, the TWDF factors have been determined using category of business guidelines set by WaterNSW. The TWDF factor is the estimated ratio of liquid trade waste discharged from a premise to the wastewater system to the total water consumption expressed as a percentage.

Usage charges will apply to Category 2 liquid trade waste dischargers and charges will be calculated as defined in WaterNSW document Liquid Trade Waste Regulation Guidelines April 2009.

Excess Mass charges will apply to Category 3 liquid trade waste dischargers and charges will be calculated as defined in WaterNSW document Liquid Trade Waste Regulation Guidelines April 2009. See Council's adopted Schedule of Fees and Charges for chemical composition charge rates.

The trade waste usage charge for non-residential properties is calculated by applying the property's business category TWDF against the liquid trade waste usage charge.

Non-Complying Trade Waste Discharge Users (Sections 501 and 502 LGA)

Properties that are technically non-complying users of Council's wastewater reticulation system will be charged a higher liquid trade waste usage charge. This pricing signal is a valuable tool in achieving compliance and reducing adverse impacts of non-compliant discharge to Council's wastewater infrastructure.

The following table outlines 2022/23 liquid trade waste (volumetric) usage charges.

Liquid Trade Waste (volumetric) Usage Charges

Charge Type	Rate per Kilolitre (\$/KL)	Estimated Yield (\$)
Liquid Trade Waste Usage Charge – Category 2 and 2S	2.34	293,621
Liquid Trade Waste Usage Charge – Non-Compliant Category 1	3.87	Unknown
Liquid Trade Waste Usage Charge – Non-Compliant Category 2 and 2S	17.80	Unknown
Liquid Trade Waste Usage Charge – Non-Compliant Private Pumping Station	3.87	Unknown
Total Liquid Trade Waste (volumetric) Usage Charges		293,621

Method of Calculating Usage Charges - Water, Wastewater and Liquid Trade Waste

Residential Property (water usage charges only)

The following formula indicates how total usage charges would be calculated for a residential property consuming water.

$$TUC = C \times UC$$

Where:	TUC	=	Total Usage Charges (\$)
	C	=	Water Consumption (kilolitres)
	UC	=	Water Usage Charge (\$)

Non-Residential Property discharging Wastewater

The following formula indicates how total usage charges would be calculated for a non-residential property consuming water and discharging wastewater.

$$TUC = (C \times UC) + (SDF \times C \times UCs)$$

Where:	TUC	=	Total Usage Charges (\$)
	C	=	Water Consumption (kilolitres)
	C	=	Water Usage Charge (\$)
	UCs	=	Wastewater Usage Charge (\$)
	SDF	=	Sewer Discharge Factor (%)

Non-Residential Property discharging Wastewater and Liquid Trade Waste

The following formula indicates how total usage charges would be calculated for a non-residential property consuming water and discharging both wastewater and liquid trade waste.

$$TUC = (C \times UC) + (SDF \times C \times UCs) + (TWDF \times C \times UCt)$$

Where:	TUC	=	Total Usage Charges (\$)
	C	=	Water Consumption (kilolitres)
	UC	=	Water Usage Charge (\$)
	UCs	=	Wastewater Usage Charge (\$)
	UCt	=	Liquid Trade Waste Usage Charge (\$)
	SDF	=	Sewer Discharge Factor (%)
	TWDF	=	Trade Waste Discharge Factor (%)

Fees

On-Site Sewage Management System (OSMS) Fee (Section 608 [2] LGA)

Council levies an annual OSMS fee on Rates and Charges Notices that partly funds a range of services provided by Council in regard to the management of on-site sewage management systems such as impartial advice, inspections, administration and education. The balance of funding is provided from Council's general fund.

The OSMS fee replaces the annual approval to operate an OSMS renewal application process for an existing OSMS.

The OSMS fee does not replace the Approval to Operate application fee for new owners, installing upgrades / new systems or fees related to unapproved alterations or installations. See Council's adopted Schedule of Fees and Charges for relevant fees.

The following table details the OSMS fee for 2022/23 per system or equivalent tenement or dwelling house.

Fee Description	Fee (\$)	Quantity	Estimated Yield (\$)
On Site Sewage Management System Fee (OSMS)	54	4,089	220,806

Address Skip Tracing Fee - At Cost (minimum Fee \$32)

Charged for tracing a customer's current address in cases where external costs are incurred by Council after initial standard searches prove unsuccessful (e.g. unclaimed returned mail / legal debt recovery processes).

Copy of Rates or Water Notice Fee – \$6 per notice

Charged for requests for copies of rates or water notices issued/mailed more than 12 months prior to the customer request. Documents will be provided to the customer within 5 business days. Customers will be encouraged to register for email delivery of rates and water notices as this process will enable them to access electronic copies of historical notices from within their eNotices account free of charge.

Rating Information Search / Administration Fee - \$54 per hour (minimum fee \$30)

Charged for requests for historical rating information. Rating information could include but is not limited to levy transaction data, payment receipt listings, historical documentation, archive searches but does not include copies of notices (covered by a separate fee). Information or documentation requests for the current and/or previous rating year is free of charge.

Interest on Overdue Rates & Charges (Section 566 LGA)

Interest accrues on a daily basis on rates and charges that remain unpaid after they become due and payable. Council will apply the maximum interest rate allowable under Section 566 (3) of the LGA as determined by the Minister for Local Government each year.

The Minister announced via OLG Circular 22-06 on 1 April 2022 that the maximum interest rate on overdue rates and charges for 2022/23 is to be **6.0%**.

Description	Rate
Interest Rate – Overdue rates and charges	6.0%

Part Year Adjustments to Rates and Annual Charges – Property Changes

In accordance with sections 527 and 546 of the LGA and pursuant to Council policy, a property's rates and charges will be adjusted on a quarterly basis following a change in circumstances (e.g. subdivision or change in rating categorisation).

Relevant adjustments to rates and charges will be made from the next rating quarter following the effective date of the change (e.g. subdivision plan registration date or date an application for categorisation review was made).

The exception to this is for waste collection charges where adjustments are made either as above or on a pro-rata basis, whichever event is earlier and also for water and wastewater usage charges that are based on the date the water meter is read.

Retrospective adjustments would usually be made for the current rating year only however, Council may decide to make retrospective adjustments for a period outside this range in certain cases at its discretion depending upon equity and specific circumstances.

Council may choose not to make current year adjustments if the value of the adjustments is less than \$50 if Council considers that the account will be uneconomical to collect.

Making the rates and charges and setting the interest rate – Rate Notice rate and charge short names

In accordance with sections 533, 534, 535, 543 and 566, Council must make the rates and charges and set the interest rate annually. Council must also give a short name to each rate or charge made. A separate report is presented to Council in June annually to adopt rates, charges, fees and interest charges to satisfy these legislative requirements.

Asset Replacement Programs

Plant and Equipment

Plant and equipment to be disposed of or replaced has either reached the end of its economic life or is no longer required for Council's operations.

Motor Vehicles

Council's sedan type vehicles are traded at the time considered the most economically viable, taking into account age, kilometres travelled, changeover costs and market demands.

Loan Borrowings

During the 2022/2023 financial year, Council is proposing to borrow the following new loan amounts:

Fund	Proposed New Loan Borrowings \$	Loan Purpose
General Fund	1,500,000	First Sun Holiday Park Land Purchase
General Fund	3,500,000	Former Byron Hospital redevelopment
General Fund	800,000	Shire wide Street Light conversion to LED lighting – contribution to Essential Energy
Water Fund	0	
Sewerage Fund	15,000,000	Bio-Energy Facility
Total New Loan Borrowings	20,800,000	

The proposed borrowings for 2022/2023 relating to Bio-Energy Facility identified above will only occur subject to the business cases for the loan purposes being approved by Council following feasibility. The amount of eventual loan borrowings will also be contingent upon any grant funding that may be secured in relation to the Bio-Energy Facility. Loan Borrowings for the redevelopment of the former Byron Hospital will be subject to a Capital Expenditure Review to be submitted to the Office of Local Government for review.

Pricing Policy/Competitive Neutrality

Council's Pricing Policy is to recover full costs for consumer specific services except where a community service obligation exists to justify charging less than full costs. Full cost attribution is applied to all business activities. The following programs are considered to be of a commercial nature:

Category One Businesses

(Turnover greater than \$2 million)

1. Water Supplies
2. Sewerage Services
3. Holiday Parks

Fees and Charges - Pricing Codes

Council has classified each of the fees and charges in this booklet under the following codes:

(Z) Zero Cost Recovery

This good / service is provided at no cost. The costs are met entirely from property rates and general-purpose income.

(M) Minimal Cost Recovery

The price for this good / service is set to make a small contribution towards the operating costs, both direct and indirect, of providing the good / service. The remainder of the costs are met from property rates and general-purpose income.

(P) Partial Cost Recovery

The price for this good / service is set to make a significant contribution towards the operating costs, both direct and indirect, of providing the good / service. The remainder of the costs are met from property rates and general-purpose income.

(F) Full Cost Recovery

The price for this good / service is set to recover the total operating costs, both direct and indirect, of providing this good / service. Indirect costs are to include taxation equivalent payments, where applicable, in accordance with the principles of National Competition Policy.

(L) Legislative

The price for this good / service is a statutory charge set by government regulation.

(R) Reference Price

The price for this good / service is set by reference to prices charged for similar goods / services by like councils or competitors.

Goods and Services Tax (GST)

The following schedule of fees and charges has been prepared using the best available information in relation to the GST impact on the fees and charges at the time of publication.

Accordingly if a fee that is shown as being subject to GST is subsequently proven not to be subject to GST, then that fee will be amended by reducing the GST to nil. Conversely if Council is advised that a fee which is shown as being not subject to GST becomes subject to GST then the fee will be increased but only to the extent of the GST.

Name	Year 21/22 Fee (incl. GST)	Year 22/23 Fee (incl. GST)	Increase %	GST
------	----------------------------------	----------------------------------	---------------	-----

Informal Access to Information - Government Information (Public Access) Act 2009 (GIPA)

6 Mandatory proactive release of certain government information

(1) An agency must make the government information that is its open access information publicly available unless there is an overriding public interest against disclosure of the information.

(2) Open access information is to be made publicly available free of charge on a website maintained by the agency (unless to do so would impose unreasonable additional costs on the agency) and can be made publicly available in any other way that the agency considers appropriate.

(3) At least one of the ways in which an agency makes open access information publicly available must be free of charge. Access provided in any other way can be charged for.

Search fee	\$30.00	\$30.00	0.00%	N
<i>Per hour, plus photocopying and postage. Byron Shire Council is regularly releasing mandatory proactive (open access) information on its website. This information is available free of charge. All other mandatory proactive (open access) information that is not available on Council's website will be available to view free of charge at Council's Mullumbimby Office. Please note that photocopying charges apply as set out in the Customer Service and Administration section of these Fees and Charges. Access to this information in any other way will be charged for as per s.6(3) of the GIPA Act with the following fees.</i>				

Subpoena to give evidence

Attendance fee	\$131.00	\$136.00	3.82%	N

Community Development

Community rate must meet the following guidelines:

- Not for profit incorporated community organisation, with a certificate of incorporation to be provided; OR
- A community group that is not incorporated and does not generate any income for the group or any individual; OR
- Registered as an income tax exempt charity (ITEC) with the ATO, with evidence to be provided; OR
- If fundraising on behalf of a charity - with all funds raised to be provided to the charity - a letter of support from the registered charity to be provided.

Commercial rate means:

Any activity that generates income from the use of Council owned or managed land that is assessed as not meeting the definition of Community rate.

Standard rate means:

Any activity that does not generate income from the use of Council owned or managed land that is assessed as not meeting the definition of Community rate.

Private Hire means:

A genuine private function that is not open to members of the public.

INFRASTRUCTURE SERVICES

Fleet, Plant and Depot Services

Conditions for Plant Hire with Operator

Pre payment on estimated time. Hire of plant is subject to availability. All rates are for a normal working day; Mon to Fri 7.00am-4.00pm. If plant is hired on a RDO, Saturday or after normal working hours, the overtime content of the operator's wages is to be added to the rate. Any travelling time is to be charged at the indicated rates.

Generally Council will not be undertaking private works except for movement of plant and other goods using prime mover and low loader. Private works are defined in Section 67 of the Local Government Act 1993 (as amended) as "A council may, by agreement with the owner or occupier of any private land, carry out on the land any kind of work that may lawfully be carried out on the land." If private works are undertaken then the rates for the plant, labour and materials used to compile the estimate of costs will be those internal rates plus 15%.

Prime Mover PI#4042 and Low Loader PI#90	\$166.00	\$172.00	3.61%	Y
<i>Per hour</i>				
Potable water delivery	\$350.00	\$350.00	0.00%	N
<i>Delivery of up to 12,000 litres of potable water</i>				

Animal traps

Hire fee for 14 days	\$20.00	\$20.00	0.00%	Y
Non return fee	\$150.00	\$150.00	0.00%	N
<i>If trap not returned at end of hire</i>				

Private and Public Works

No private works will be commenced until the estimated cost of the work has been paid to Council. The work will only then be programmed into Council's works program.

Kerb and Gutter Contributions

<i>Per hour, advice or information regarding flood data and modelling</i>				

Byron Shire Sportsfields for Casual Use

Schools will be charged at the **Community Rate**.

- POA - Fees may be applicable to works required outside of normal maintenance program, or where the event requires a Council Officer to assist in preparations, such as instructions on the use of electricity, water, waste, location of irrigation, etc.
- Commercial Rates for hire of sportsfields are calculated with regard to specific hiring conditions and are based on spectators less than 250. Additional charges for increased spectators are as follows: 250 to 500 \$220.00 / 501 to 1,000 \$330.00 / 1,001 to 1,500 \$550.00. For events expecting spectators more than 1,500 a separate application is required.
- A minimum written notification period of 3 weeks prior to use is required for surveying and linemarking.
- Amenities cleaning fee - Additional clean if requested by Hirer. Toilets will be provided in a clean condition prior to use.

Community Rate must meet the following guidelines:

- Not for profit legal structure and a registered office within Byron Shire
- No wages or gratuities being paid to an individual
- Income being donated to community organisations
- Raising money for charity
- Supporting a community group
- Registered as an income exempt tax exempt charity (ITEC) with the ATO
- Is a genuine private event not open to members of the public
- A person (or group) who freely offers to perform a service or undertake a task

Refunds administration

- Season tickets are valid for the season in which they are purchased only. Season ticket refunds will not be given for a change of mind, but only where a refund is the available remedy under the Australian Consumer Law.
- Discount books are valid for the season in which they are purchased only. Subject to the Australian Consumer Law, expired discount books are non-refundable in whole or in part. After a discount book has expired it is no longer valid, and all transaction attempts will be declined.

Land Management

Community Rate must meet the following guidelines:

- Not for profit incorporated body raising money for a registered charity. Letter of support from registered charity and certificate of incorporation to be provided; OR
- Registered as an income tax exempt charity (ITEC) with the ATO, with evidence to be provided.

Private Rate means a genuine private function that is not open to members of the public.

Commercial Rate means any activity that generates income from the use of Council owned or managed land that is assessed as not meeting the definition of Community Rate.

Standard Rate means any activity that does not generate income from the use of Council owned or managed land that is assessed as not meeting the definition of Community Rate.

Development Assessment

Additional or amended fees set by the updated Environmental Planning and Assessment Act 1979

Any statutory fees introduced by the commencement of the updated Environmental Planning and Assessment Act 1979 and Regulations will apply.

Refunds

The Director Sustainable Environment and Economy hereunder may vary the requirements where in that person's opinion a variation is warranted due to the special circumstances of the case.

1. Development applications and Local Government and Roads Act applications

- a) Where an application has been determined and no work has commenced, no refund of the application fee.
- b) Where an application is withdrawn, and:
 - i) no assessment has been undertaken - 100% refund of the fee paid
 - ii) minimal assessment undertaken - 75% refund of the fee paid
 - iii) assessment not finalised - 50% refund of the fee paid
 - iv) assessment finalised - 25% refund of the fee paid.
- c) Only fees and charges not rendered may be returned regardless of stage of assessment.

2. Construction certificate and Complying Development certificate

- a) Where an application has been determined and no work has commenced, no refund of the construction certificate (CC) application fee.
- b) Where an application is withdrawn, and:
 - i) no assessment has been undertaken - 100% refund of CC fee paid, less \$36.00 regulatory Registration Fee
 - ii) assessment not finalised - 50% of the fee paid.
- c) Only fees and charges not rendered may be returned regardless of stage of assessment.

3. Applications for Building Certificates, authorisation and the like

- a) Where an application is withdrawn or cancelled prior to a site inspection, or prior to the matter being investigated, Council retains an administration refund fee of \$35.00 to cover its administrative costs in that matter.
- b) Where a site inspection has been carried out, or the matter has been investigated, then no refund shall apply.

Development Application fees

Review of decision to reject a development application

Estimated development cost less than \$100,000	\$55.00	\$64.00	16.36%	N
Estimated development cost \$100,000 or more, and less than or equal to \$1,000,000	\$150.00	\$175.00	16.67%	N
Estimated development cost more than \$1,000,000	\$250.00	\$292.00	16.80%	N

Development Certification fees

Complying Development Certificate

Assessment fee	\$180.00	\$200.00	11.11%	Y
<i>Fee per hour, min one hour. A full quote will be provided to the applicant for each development based on the cost of works and type of proposal.</i>				

Construction Certificate

Assessment fee – Building Works	\$180.00	\$200.00	11.11%	Y
<i>Per hour, min one hour. A full quote will be provided to the applicant for each development based on the cost of works and type of proposal.</i>				
Amended construction certificate assessment fee	\$180.00	\$200.00	11.11%	Y
Re-assessment fee	\$180.00	\$200.00	11.11%	Y
<i>Per hour, min 1 hour. Assessment of additional information or changes at Council's discretion.</i>				

Name	Year 21/22 Fee (incl. GST)	Year 22/23 Fee (incl. GST)	Increase %	GST
------	----------------------------------	----------------------------------	---------------	-----

Subdivision Works Certificate

Subdivision works up to 5 lots	\$1,000.00	\$1,110.00	11.00%	Y
Subdivision works over 5 lots	\$180.00	\$200.00	11.11%	Y
Per lot				
Minor subdivision works (eg. internal driveways)	\$1,000.00	\$1,110.00	11.00%	Y
Bulk earthworks only (eg. no roads, drainage, etc)	\$1,000.00	\$1,110.00	11.00%	Y
Assessment of additional information	\$180.00	\$200.00	11.11%	Y
Per hour, min 1 hr. Payable at lodgement of each additional information package submitted to Council.				
Amended Subdivision Works Certificate	\$1,000.00	\$1,110.00	11.00%	Y
Assessment of non-engineering reports/plans to satisfy DA conditions in conjunction with a Subdivision Works Certificate	POA			Y
Dependent upon the number and complexity of reports to satisfy conditions of development consent. Includes ecological, environmental health, etc. conditions to be satisfied.				

Subdivision/Strata Certificate

Subdivision and Strata Certificate application	\$263.00	\$272.00	3.42%	N
Plus an additional \$120 per lot				
Section 88B instrument	\$180.00	\$200.00	11.11%	N
Strata Development Contract	\$404.00	\$418.00	3.47%	N
Community Title Management Statement	\$1,050.00	\$1,087.00	3.52%	N
Community Title Development Contract	\$255.00	\$264.00	3.53%	N
Assessment of additional information	\$180.00	\$200.00	11.11%	N
Per hour, minimum one hour. Payable at lodgement of each additional information package submitted to Council.				
Assessment of non-engineering reports or plans to satisfy DA conditions	POA			Y
In conjunction with a subdivision or strata certificate				

Other certification fees

Occupation certificate	\$180.00	\$200.00	11.11%	Y
<i>Per hour, min 1 hour</i>				
Occupation Certificate or Building Application final	\$3,535.00	\$3,659.00	3.51%	Y
<i>Additional fee is charged where the last progress inspection undertaken by Council was 10+ years prior to the requested final inspection</i>				
Occupation Certificate/Building Application final	\$2,778.00	\$2,778.00	0.00%	Y
<i>Additional fee when the last progress inspection undertaken by Council was between 5 to 10 years prior to the requested final inspection</i>				

Name	Year 21/22 Fee (incl. GST)	Year 22/23 Fee (incl. GST)	Increase %	GST
------	----------------------------------	----------------------------------	---------------	-----

Other certification fees [continued]

Fire safety certificate inspection <i>Per hour, min 1 hour</i>	\$180.00	\$200.00	11.11%	Y
Certificate registration fee <i>Includes Construction, Complying Development, Subdivision Works and Subdivision/Strata Certificates</i>	\$36.00	\$40.00	11.11%	N
Inspection fee <i>Per hour, min 1 hour</i>	\$180.00	\$200.00	11.11%	N
Inspection fee - after hours call out <i>Per hour, min 1 hour</i>	\$360.00	\$400.00	11.11%	Y
Missed inspection assessment fee <i>Per hour, min 2 hours</i>	\$180.00	\$200.00	11.11%	N

Local Government Act approvals

Onsite Sewage Management System

(S68,C5)

Assessment, inspections and approval to operate installed OSMS without the prior approval of Council - alter/upgrade system <i>Per dwelling/structure. Additional information to demonstrate compliance with Council requirements may be required.</i>	\$753.00	\$800.00	6.24%	N
Inspection fee <i>Per hour, min 1 hour</i>	\$180.00	\$200.00	11.11%	N
Onsite sewage management system – application to install <i>Per equivalent tenement. Including upgrades of existing systems.</i>	\$426.00	\$441.00	3.52%	N
Onsite sewage management system – application to alter or add to approved system <i>Per equivalent tenement. Where approval relates to upgrading of an existing approved system or installation of household OSSM in a reticulated sewer area.</i>	\$214.00	\$221.00	3.27%	N
Inspection Fee <i>per dwelling or structure</i>	\$0.00	\$200.00	∞	N

Stormwater

(S68,B5)

Food Act and Health notification

Environmental Health related applications and services

- All new annual environmental health approvals and permit fees will be calculated on a pro-rata basis.
100% - 1 Jul to 31 Dec
70% - 1 Jan to 31 Mar
35% - 1 Apr to 30 Jun
(Excludes market and temporary food approvals)
- Refunds
 - A non-refundable administration fee of \$65 applies for applications where assessment by an officer has not occurred
 - Refunds are not applicable to applications less than \$65
 - Where assessment of application has occurred, a refund of 25% of the application fee may apply
 - Refused applications are non-refundable
 - Approvals and permits may be subject to a refund based on a pro-rata amount less a \$65 service fee.
75% - < 3 months of term of approval
50% - > 3 months and < 6 months of term of approval
25% - > 6 months and < 9 months of term of approval
Refunds are not applicable after 75% of the approval or permit term

All refunds and fees are subject to approval by Coordinator/Manager of the Unit.
- Approvals and permits that can be transferred require an application to be made to Council.
- Processing times for all applications commence when a properly made application has been received. Subject to Team Leader/management approval, applications may be processed urgently within 3 working days upon request and shall incur a fee of \$50

Retail food and commercial premises

Retail food and commercial premises inspection	\$180.00	\$200.00	11.11%	N
<i>Per hour (min charge \$104.00 for half hour)</i>				
Re-inspection fee - where previously unsatisfactory	\$104.00	\$104.00	0.00%	N
<i>Per half hour or part thereof, min 30 minutes</i>				

Annual food business administration

3 part time equivalents = 1 full time equivalent

Small food business (5 or less full time equivalent food handlers)	\$390.00	\$390.00	0.00%	N
<i>Per premises under Food Regulation 2015 Part 3 Clause 15</i>
