

## CONDITIONS OF CONSENT:

### SCHEDULE 1. CONDITIONS OF CONSENT

#### Parameters of consent

**1. Development is to be in accordance with approved plans**

The development is to be in accordance with plans listed below:

| Plan No.              | Description                                   | Prepared by             | Dated:     |
|-----------------------|---|-------------------------|------------|
| 1 of 10, 20.01.01     | Site Plan                                     | Michael Spiteri         | March 2020 |
| 2 of 10, 20.01.02     | Floor Plan                                    | Michael Spiteri         | March 2020 |
| 3 of 10, 20.01.03     | Elevations 1                                  | Michael Spiteri         | March 2020 |
| 4 of 10, 20.01.04     | Elevations 2                                  | Michael Spiteri         | March 2020 |
| 5 of 10, 20.01.05     | Section                                       | Michael Spiteri         | March 2020 |
| 6 of 10, 20.01.06     | Section                                       | Michael Spiteri         | March 2020 |
| 7 of 10, 20.01.07     | Window & Door Schedule                        | Michael Spiteri         | March 2020 |
| 9 of 10, 20.01.09     | Roof Plan                                     | Michael Spiteri         | March 2020 |
| 10 of 10, 20.01.10    | Carport                                       | Michael Spiteri         | March 2020 |
| GC20004 -DR01 Issue A | Site Plan                                     | Garth Cook & Associates | 13.02.20   |
| GC20004 -DR02 Issue A | Driveway Long Section & Typical Cross Section | Garth Cook & Associates | 13.02.20   |
| GC20004 -DR03 Issue A | Typical Cross Section                         | Garth Cook & Associates | 13.02.20   |

The development is also to be in accordance with any changes shown in red ink on the approved plans or conditions of consent.

The approved plans and related documents endorsed with the Council stamp and authorised signature must be kept on site at all times while work is being undertaken.

**2. Support for neighbouring buildings**

If an excavation extends below the level of the base of the footings of a building on an adjoining allotment of land, the person causing the excavation to be made or builder must:

- Inform the neighbouring property owner immediately.
- Engage a structural engineer to determine any remedial works that may need to be undertaken.
- Preserve and protect the adjoining building from damage.
- If necessary, underpin and support the building in an approved manner.

**3. Conditions prescribed by the Regulation**

This development consent is subject to the conditions prescribed by the regulations in accordance with subsection 4.17(11) of the Environmental Planning and Assessment Act 1979. Conditions are provided in **Schedule 3** of this consent.

**4. Bushfire safety measures**

This land is identified as being designated bushfire prone land and Under S4.14 of the act, Council must be satisfied prior to making a determination for development on bushfire prone land that the development complies with "Planning for Bush fire Protection 2019".

The development is approved subject to the following conditions:

- The proposed development is to comply with the plan titled '*Bushfire Assessment*

**The following conditions are to be complied with prior to issue of a Construction Certificate for building works**

**5. Plans of retaining walls and drainage**

The application for a Construction Certificate is to include plans and specifications that indicate retaining walls or other approved methods of preventing movement of the soil, where any excavation or filled area exceeds 600mm in height. Adequate provision must be made for drainage.

Such plans and specifications must be approved as part of the Construction Certificate.

**6. Water - Section 68 approval required**

An Approval under Section 68 of the Local Government Act 1993 to carry out water supply work must be obtained.

**7. On-site sewage management facility Section 68 approval required**

An approval under Section 68 of the Local Government Act 1993 for on-site effluent disposal must be obtained from Council prior to issue of a Construction Certificate. Such approval must be issued after the date of this consent.

The application for Section 68 approval must be accompanied by a report prepared by a suitably qualified professional with demonstrated experience in effluent disposal matters, which addresses the site specific design of sewage management in accordance with the requirements of the NSW Local Government Act, and Approvals Regulation and Guidelines approved by the Director General.

**8. Geotechnical Report required – Engineering Works**

A certificate from a professional Engineer experienced in soil mechanics is to be provided to the Principal Certifying Authority, certifying that:

- a) the design of the civil engineering works, including retaining walls and/or cut & fill batters, has been assessed as structurally adequate,
- b) the civil engineering works will not be affected by landslip or subsidence either above or below the works; and
- c) adequate drainage has been provided.

**9. Stormwater Drainage – Infiltration Trench**

The application for a Construction Certificate is to include plans and specifications for stormwater drainage in accordance with the relevant Australian Standard. All stormwater drainage for the development must be conveyed by a gravity system to an infiltration trench or trenches complying with the requirements of Council's *Comprehensive Guidelines for Stormwater Management*.

The infiltration trench or trenches must be designed by a qualified practising Civil Engineer to fully infiltrate the 20 year ARI runoff from all impervious areas of the proposed development for all storm durations without surcharge onto neighbouring properties. The Civil Engineer is to be a corporate member of the Institution of Engineers Australia or is to be eligible to become a corporate member and have appropriate experience and competence in the related field.

Such plans and specifications must be approved as part of the Construction Certificate.

**10. Consent required for works within the road reserve**

Consent from Council must be obtained for works within the road reserve pursuant to Section 138 of the Roads Act 1993. Three (3) copies of engineering construction plans must

accompany the application for consent for works within the road reserve.

Such plans are to be in accordance with Council's current Design & Construction Manuals and are to provide for the following works:

**Driveway**

Driveway upgrade in accordance with Type 1 of RMS drawing 19.07.2016.

**11. Access & Parking**

The application for a Construction Certificate is to include plans and specification that indicate access, parking and manoeuvring details in accordance with the plans approved by this consent.

The access, parking and manoeuvring for the site is to comply with the requirements of Planning for Bush Fire Protection 2019, Council's DCP, NRLG Guidelines and AS 2890.1-2004: Parking facilities, Part 1: Off-street car parking. Plans are to include, but not be limited to, the following items:

- a) Generally in accordance with Garth Cook & Associates drawings;
- b) Amend the proposed turning head in Garth Cook drawing GC20004 - DR01 & DR03 Issue A in accordance with Type C in Figure A3.3 of NSW Planning for Bush Fire Protection of 2019;
- c) Amend the proposed turning head in Garth Cook drawing GC20004 - DR03 Issue A to provide a maximum grade of 5%;
- d) Provide scour protection in accordance with section D1.22.4 of NRLG - D1 - Geometric Road Design;
- e) site conditions affecting the access;
- f) existing and design levels;
- g) drainage details; and
- h) access requirements of any bushfire safety authority.

Such plans and specifications must be approved as part of the Construction Certificate.

NOTE: The plans must be in compliance with Council's current "Northern Rivers Local Government Development Design & Construction Manuals and Standard Drawings".

**12. Compliance with BASIX Certificate requirements**

The development is to comply with Basix Certificate No. 1088664S, dated 23 March 2020.

The commitments indicated in the Certificate are to be indicated on the plans submitted for approval of the Construction Certificate.

The plans submitted must clearly indicate all windows numbered or identified in a manner that is consistent with the identification on the Basix Certificate.

Minor changes to the measures may be undertaken without the issue of any amendment under Section 4.55 of the Act, provided that the changes do not affect the form, shape or size of the building.

Such plans and specifications must be approved as part of the Construction Certificate.

**13. Building materials and colours to be specified**

The application for a Construction Certificate is to include plans and specifications that indicate the proposed building materials and colours consistent with the provisions of Development Control Plan 2014 – Chapter D2.2.3 - Character and Visual Impact. Please note that colours must be non-reflective earth tone colours and that the use of white and near white colours is not permissible

Such plans and specifications must be approved as part of the Construction Certificate.

**14. Developer Contributions to be paid**

Contributions set out in the schedule below are to be paid to Council prior to the release of a

construction certificate. Contributions are levied in accordance with the Byron Shire Developer Contributions Plan 2012 (as amended). The Plan may be viewed on line at [www.byron.nsw.gov.au](http://www.byron.nsw.gov.au) or during office hours at the Council Offices located at Station Street, Mullumbimby. These contributions are to fund public amenities and services as listed in the schedule. Additional details on the specific amenities are to be found in the Byron Shire Developer Contributions Plan 2012 (as amended).

The contributions in the schedule are current at the date of this consent. The contributions payable will be adjusted in accordance with the relevant plan and the **amount payable will be calculated on the basis of the contribution rates that are applicable at the time of payment**. The schedule contains a date for which the schedule remains valid, after this date you will have to contact Council for an updated schedule.

**15. Long Service Levy to be paid**

In accordance with Section 6.8 of the Environmental Planning and Assessment Act 1979 (as amended), a Construction Certificate for SUBDIVISION WORKS OR BUILDING WORKS shall NOT be issued until any Long Service Levy payable under Section 34 of the Building and Construction Industry Long Service Payments Act, 1986 (or where such levy is payable by instalments, the first instalment of the levy) has been paid (as applicable).

These payments can be made online at [www.longservice.nsw.gov.au](http://www.longservice.nsw.gov.au). Proof of payment is required to be submitted with the Construction Certificate application.

For further information regarding the Long Service Payment please refer to the website above.

**16. Bond required to guarantee against damage to public land**

A bond of \$3000.00 is to be paid to Council as guarantee against damage to surrounding public land and infrastructure during construction of the proposed development, together with payment of an asset inspection fee in accordance with Council's fees and charges. Evidence is to be provided to Council indicating the pre development condition of the surrounding public land and infrastructure. Such evidence must include photographs. The proponent will be held responsible for the repair of any damage to roads, kerb and gutters, footpaths, driveway crossovers or other assets.

Such bond will be held until Council is satisfied that the infrastructure is maintained/repaired to pre development conditions and that no further work is to be carried out that may result in damage to Council's roads, footpaths etc.

**17. Site Waste Minimisation and Management Plan**

Chapter B8 of Byron Shire Development Control Plan 2014 (DCP 2014) aims to facilitate sustainable waste management in a manner consistent with the principles of Ecologically Sustainable Development. Prior to the issue of a Construction Certificate, a Site Waste Minimisation and Management Plan (SWMMP) must be submitted outlining measures to minimise and manage waste generated during demolition, construction and the ongoing operation and use of the development. The SWMMP must specify the proposed method of recycling or disposal and the waste management service provider.

A template is provided on Council's website to assist in providing this information [www.byron.nsw.gov.au/files/publication/swmmp-pro-forma-.doc](http://www.byron.nsw.gov.au/files/publication/swmmp-pro-forma-.doc)

**18. Tree Removal**

No trees or vegetation to be cleared or removed until a Construction Certificate has been issued.

**The following conditions are to be complied with prior to any building or construction works commencing**

**19. Erosion and sediment measures**

Where erosion of soils or runoff of any substance is likely to occur, erosion and sedimentation controls are to be in place in accordance with the Guidelines for Erosion & Sediment Control on Building Sites. This may include stockpiled materials such as sand, etc.

Any such measures that are deemed to be necessary because of the local conditions must be maintained at all times until the site is made stable (i.e. by permanent vegetation cover or hard surface).

**20. Toilet facilities**

Toilet facilities are to be provided, at or in the vicinity of the work site at the rate of one toilet for every 20 persons or part of 20 persons employed at the site. Each toilet provided must be a toilet connected to an accredited sewage management system approved by the Council.

**21. Rural House numbering**

The Rural Address Number for this property is No.212. This number must be displayed at the main driveway entrance approved for your property, in accordance with the "Rural Property Address Guidelines"

**The following conditions are to be complied with during any building or construction works**

**22. Construction times**

Construction works must not unreasonably interfere with the amenity of the neighbourhood. In particular construction noise, when audible from adjoining residential premises, can only occur:

- a) Monday to Friday, from 7 am to 6 pm.
- b) Saturday, from 8 am to 1 pm.

No construction work to take place on Sundays or public holidays.

**Note: Council may impose on-the-spot fines for non-compliance with this condition.**

**23. Construction Noise**

Construction noise is to be limited as follows:

- a) For construction periods of four (4) weeks and under, the L10 noise level measured over a period of not less than fifteen (15) minutes when the construction site is in operation must not exceed the background level by more than 20 dB(A).
- b) For construction periods greater than four (4) weeks and not exceeding twenty-six (26) weeks, the L10 noise level measured over a period of not less than fifteen (15) minutes when the construction site is in operation must not exceed the background level by more than 10 dB(A).

**Note: Council may impose on-the-spot fines for non-compliance with this condition.**

**24. Signs to be erected on building and demolition sites**

A sign must be erected in a prominent position on the work site:

- a) stating that unauthorised entry to the work site is prohibited, and
- b) showing the name of the person in charge of the work site and a telephone number at which that person may be contacted outside working hours.

Any such sign is to be removed when the work has been completed.

**25. Inspection for on-site sewage management**

All plumbing and drainage works is to be installed by a suitably qualified person. The plumber must adhere to the requirements of the NSW Code of Practice and AS/NZ 3500. The plumber

is to arrange for the following inspections to be undertaken:

- a) Internal drainage prior to covering of the works.
- b) External drainage prior to the covering of works.
- c) Irrigation installation prior to the covering of works.
- d) Final

**26. Builders rubbish to be contained on site**

All builders rubbish is to be contained on the site in a 'Builders Skips' or an enclosure. Footpaths, road reserves and public reserves are to be maintained clear of rubbish, building materials and all other items.

**27. Fill to be retained on the subject land**

Fill material must not encroach onto any adjoining land.

**28. Prevention of water pollution**

Only clean and unpolluted water is to be discharged to Council's stormwater drainage system or any watercourse to ensure compliance with the Protection of Environment Operations Act.

**Note: Council may impose on-the-spot fines for non-compliance with this condition.**

**29. Maintenance of sediment and erosion control measures**

Sediment and erosion control measures must be maintained at all times until the site has been stabilised by permanent vegetation cover or hard surface.

**30. Stormwater drainage work**

Stormwater drainage for the development must be constructed in accordance with the approved plans and specification by a suitably qualified person.

**31. Demolition**

Any required demolition works must be undertaken in accordance with the relevant requirements of Australian Standard AS 2601–1991: The Demolition of Structures published by Standards Australia, and the WorkCover Authority of NSW.

**32. Removal of demolition and other wastes**

All wastes, including asbestos and lead-contaminated wastes, associated with these works are to be handled and disposed of in accordance with the requirements of the Work Cover Authority. The applicant/owner is to produce documentary evidence that this condition has been met. Wastes must be disposed of at a Licenced Waste Facility. All wastes removed from the site must be managed and disposed of in accordance with the [NSW DECC Waste Classification Guidelines \(2008\)](#).

**33. Excavated natural materials and demolition waste disposal**

Any and all excavated natural materials and demolition and builders waste transported from the site must be accompanied (a copy kept with the transporter) by a NSW Protection of The Environment Operations Act s143 Notice. Template s143 Notices are available at <https://www.epa.nsw.gov.au/-/media/epa/corporate-site/resources/wasteregulation/160095-notices143-form.docx>

**34. Muted bushland tones external finishes**

To ensure the development is compatible with the surrounding environment, colours and finishes are to be muted bushland tones. In this regard white, light or bright colours are not permissible.

**35. Aboriginal Relics**

If any Aboriginal archaeological relics or items are exposed during construction works, the Applicant shall:

- a) immediately cease works;
- b) notify the NSW National Parks and Wildlife Service (NPWS);
- c) obtain any necessary permits and/or approvals to continue the work under the National Parks and Wildlife Act 1974.

The Applicant shall comply with any further request made by the NPWS to cease work for the purposes of archaeological assessment and recording.

**The following conditions are to be complied with prior to occupation of the building**

**36. Works to be completed prior to issue of a Final Occupation Certificate**

All of the works indicated on the plans and approved by this consent, including any other consents that are necessary for the completion of this development including approvals issued under the Local Government Act 1993 and the Roads Act 1993, are to be completed and approved by the relevant consent authority/s prior to the issue of a Final Occupation Certificate.

Any Security bond paid for this application will be held until Council is satisfied that no further works are to be carried out that may result in damage to Councils road/footpath reserve.

**37. Plumbing Works**

All works in relation to any associated Section 68 Water and Sewerage approval must be fully complied with and have a Final Plumbing Certificate issued prior to the issue of an Interim or Final Occupation Certificate."

**38. Access to be completed**

The access to be constructed in accordance with the approved plans and Roads Act consent.

**39. Internal driveway and parking areas in accordance approved plans**

A driveway, manoeuvring area and parking are to be constructed in accordance with the approved plans.

**40. Stormwater drainage work**

Stormwater drainage for the development must be constructed in accordance with the approved plans and specification prior to issue of an occupation certificate.

**41. Stormwater disposal**

Stormwater must be collected and disposed of in a controlled manner such that stormwater flows are:

- a) Clear of buildings and infrastructure,
- b) Clear of effluent disposal areas,
- c) Not concentrated so as to cause soil erosion,
- d) Not directly to a watercourse, and
- e) Not onto adjoining land.

**42. On-site Sewage Management system must be completed**

The on-site sewage management system is to be constructed in accordance with approved plans and in accordance with current specifications and standards. The system is not to be used and/or operated until a Council Officer has inspected the system and authorised its use.

**43. Approval to Operate required**

In accordance with the Local Government Act, an Approval to Operate the onsite sewage management system must be obtained from Council. Forms may be downloaded from Council's website with '<http://www.byron.nsw.gov.au/on-site-sewage>'.

**44. Compliance with bushfire conditions**

Documentary evidence from a suitably qualified professional is to be submitted demonstrating that the bush fire conditions of this Notice of Determination have been complied with.

**The following conditions are to be complied with at all times**

**45. Approved use – Dual occupancy**

Dual occupancy (detached) – Use of the development is approved for a Dual occupancy (detached). Any activity other than that defined as a Dual occupancy (detached) must not be carried out unless development consent is sought.

Note: *Dual occupancy (detached)* means “2 detached dwellings on one lot of land, but does not include a secondary dwelling”, and *dwelling* means “a room or suite of rooms occupied or used or so constructed or adapted as to be capable of being occupied or used as a separate domicile”. The Dwelling house is not approved for use as a short term rental accommodation, tourist and visitor accommodation or to be “holiday let”.

**46. Rain Water Supply**

All rain water supply tanks are required to divert water from the first rainfall using a first flush or bypass device.

**47. Site Waste Minimisation and Management**

All works must comply with the objectives of waste minimisation and waste management of Part B8.1.2 of DCP 2014.

**48. Must not interfere with the amenity of the neighbourhood**

The use of the development must not interfere with the amenity of the neighbourhood by reason of noise, vibration, smell, fumes, smoke, dust, wastewater or otherwise. In particular:

- a) Any complaints to Council about ‘offensive’ noise will be dealt with under the provisions of the Protection of the Environment Operations Act 1997.
- b) Only clean and unpolluted water is permitted to be discharged to Councils’ stormwater drainage system or any waters.
- c) All wastes shall be contained within appropriate containers fitted with a tight-fitting vermin-proof lid.
- d) All waste storage and sewage facilities shall be serviced and maintained to ensure that all relevant environment protection standards are satisfied.
- e) Goods deliveries shall be restricted to daytime operating hours.

**SCHEDULE 2. PRESCRIBED CONDITIONS**

**The prescribed conditions in accordance with Division 8A of the Environmental Planning and Assessment Regulation apply as are of relevance to this application:**

Clause 98      Compliance with Building Code of Australia and insurance requirements under the Home Building Act 1989

Clause 98A     Erection of signs

Clause 98B Notification of Home Building Act 1989 requirements

Clause 98E Condition relating to shoring and adequacy of adjoining property

Refer to the NSW State legislation for full text of the clauses under Division 8A of the [Environmental Planning and Assessment Regulation 2000](http://www.legislation.nsw.gov.au). This can be accessed at <http://www.legislation.nsw.gov.au>.

## SCHEDULE 3. REASONS FOR DECISION, HOW COMMUNITY VIEWS WERE ADDRESSED

*Note: From July 1 2018, Council's are required to give and publicly notify reasons for a range of planning decisions where they are deciding if development should proceed to help community members to see how their views have been taken into account and improve accountability to stakeholders. A statement of reasons for the determination of this application is provided below.*

| Statement of Reasons  |
|---|
| The proposed development complies with the provisions of Byron Local Environmental Plan 2014.   |
| The proposed development complies with relevant State Environmental Planning Policies   |
| The proposed development complies with relevant provisions of Development Control Plan 2014   |
| The proposed development complies with Environmental Planning & Assessment Regulation 2000 considerations.  |
| The proposed development will not have significant adverse impact on the natural, built or social environment or economic impacts on the locality.  |
| The proposed development is considered suitable for the proposed site.  |
| The development application was notified/advertised in accordance with Council's Community Participation Plan. Issues raised in the submissions have been addressed during assessment of the application. |
| The proposed development is unlikely to prejudice or compromise the public interest.  |

## SCHEDULE 4. NOTES

### Construction Certificate required:

This development consent is issued under the Environmental Planning and Assessment Act 1979 and does not relate to structural aspects or specifications of the building under the Building Code of Australia. All buildings and alterations require the issue of a Construction Certificate prior to works commencing. Application forms are available from the customer services counter or Council's website [www.byron.nsw.gov.au](http://www.byron.nsw.gov.au)

### Principal Certifying Authority:

Work must not commence until the applicant has:-

- appointed a Principal Certifying Authority (if the Council is not the PCA); and
- given Council at least two days notice of the intention to commence the erection of the building. Notice must be given by using the prescribed 'Form 7'.
- notified the Principal Certifying Authority of the Compliance with Part 6 of the Home Building Act 1989.

### Occupation Certificate required:

The building must not be occupied until the Principal Certifying Authority has issued an Occupation Certificate.

### Protection of the Environment Operations Act 1997:

It is an offence under the provisions of the Protection of the Environment Operations Act 1997 to act in a manner causing, or likely to cause, harm to the environment. Anyone allowing material to enter a waterway or leaving material where it can be washed off-site may be subject to a penalty infringement

notice ("on-the-spot fine") or prosecution.

#### **Penalties apply for failure to comply with development consents**

Failure to comply with conditions of development consent may lead to an on the spot fine being issued pursuant to section 4.2(1) of the Environmental Planning & Assessment Act 1979 or prosecution pursuant to section 9.50 of the Environmental Planning & Assessment Act 1979.

#### **Plumbing Standards and requirements.**

All Plumbing, Water Supply, Sewerage and Stormwater Works shall be installed in accordance with the Local Government Act 1993, Plumbers Code of Australia and AS/NZS 3500 Parts 0-5, the approved plans (any notations on those plans) and the approved specifications. Any plumbing inspections required under a Section 68 Approval are to occur in accordance with that approval.

#### **Relics Provisions- Advice**

Attention is directed to the NSW Heritage Act 1977 and the provisions of the Act in relation to the exposure of relics. The Act requires that if:

- a) a relic is suspected, or there are reasonable grounds to suspect a relic in ground, that is likely to be disturbed damaged or destroyed by excavation; and/or
- b) any relic is discovered in the course of excavation that will be disturbed, damaged or destroyed by further excavation;

Those responsible for the discovery must notify nominated management personnel who will in turn notify the Heritage Council of New South Wales or its delegate, the Office of Environment and Heritage, NSW Heritage Branch, and suspend work that might have the effect of disturbing, damaging or destroying such relic until the requirements of the NSW Heritage Council have been satisfied (ss139, 146).

#### **S7.11 Schedule of Development Contributions**

The following contributions are current at the date of this consent. The contributions payable will be adjusted in accordance with the relevant plan and the **amount payable will be calculated on the basis of the contribution rates that are applicable at the time of payment.** The current contribution rates are available from Council offices during office hours. **Payments will only be accepted by cash or bank cheque.**

**Updated Section 94 contributions Schedule for DA 10.2020.306.1****Address****212 Fowlers Lane, Bangalow****Bangalow****Catchment**

This schedule was calculated in spreadsheet #E2015/28112

|                             |   |   |          |   |            |
|-----------------------------|---|---|----------|---|------------|
| 1 bedroom units =           | 0 | @ | 0.55 SDU | = | 0          |
